Daniel,

I will send over the images via my Hightail account shortly. With regard to the croaker name, I can't allow it to be mislabeled as a different species (make me look bad as an illustrator), but I suppose it would be okay to call it *Micropogonias spp.* Can you tell me the approximate reproduction size of the images so I know what size files to send to you?

Dear Diane,

Thanks so much. Below are the illustrations we'd like to use. I am not sure how this works. Do you send me them without the watermark?

The Atlantic croaker is most similar to the species we encounter in Nicaragua, the Whitemouth Croaker (*Micropogonias furnieri*). Would you mind if in our paper we label your image of the Atlantic Croaker either Whitemouth Croaker (*Micropogonias furnieri*) or *Micropogonias spp.*?

By the way, your illustrations are really beautiful.

Dan

Gafftopsail Catfish (*Bagre marinus*)

Atlantic Croaker (*Micropogonias undulatus*)

Mojarras (*Eugerres plumieri*)

Weakfish (*Cynoscion regalis*)

Common Snook (*Centropomus undecimalis*)

Creville Jack (*Caranx hippos*)

Dan,

Yes, that is fine to use the fish illustrations with the standard licensing fees waived for the purpose you described. Where appropriate, please include the credit information, © Diane Rome Peebles.

**Subject:** Fish drawings

Dear Ms. Peebles,

I am writing to request permission to use some of your images in an academic manuscript. I have attached the proposed figure in which I plan to use the images so you understand their use.

Below is the request that the journal advises I send to you.

"I request permission for the open access journal PLOS ONE to publish XXX

I request permission for the open-access journal FLOES ONE to publish XXX under the Creative Commons Attribution License (CCAL) CC BY 4.0 (<http://creativecommons.org/licenses/by/4.0/>). Please be aware that this license allows unrestricted use and distribution, even commercially, by third parties. Please reply and provide explicit written permission to publish XXX under a CC BY license.”

I am interested in the following: mojarra, weakfish, snook, catfish, black drum (croaker), jack, white shrimp, and red shrimp. I am not sure whether you have images of all of these but I know there are at least two that you do (mojarra and black drum).

If you agree in principle, I can look at your web site and find the images I would like to use.

Sincerely,

Dan
