

Description of Supplementary Files

File name: Supplementary Data 1

Description: Mass spectrometric analyses of proteins purified together with Atp10, using Atp10^{ProtA} containing mitochondria from wild type and *ina22Δ* cells

File name: Supplementary Data 2

Description: Mass spectrometric analyses of proteins purified together with Atp23 upon immunoisolation of Atp23 from wild type and *ina22Δ* cells

File name: Supplementary Data 3

Description: Mass spectrometric analyses of protein complexes separated by BN-PAGE after immunoisolation of Ina22^{FLAG} from wild type mitochondria
