

Supplementary information, Figure S4

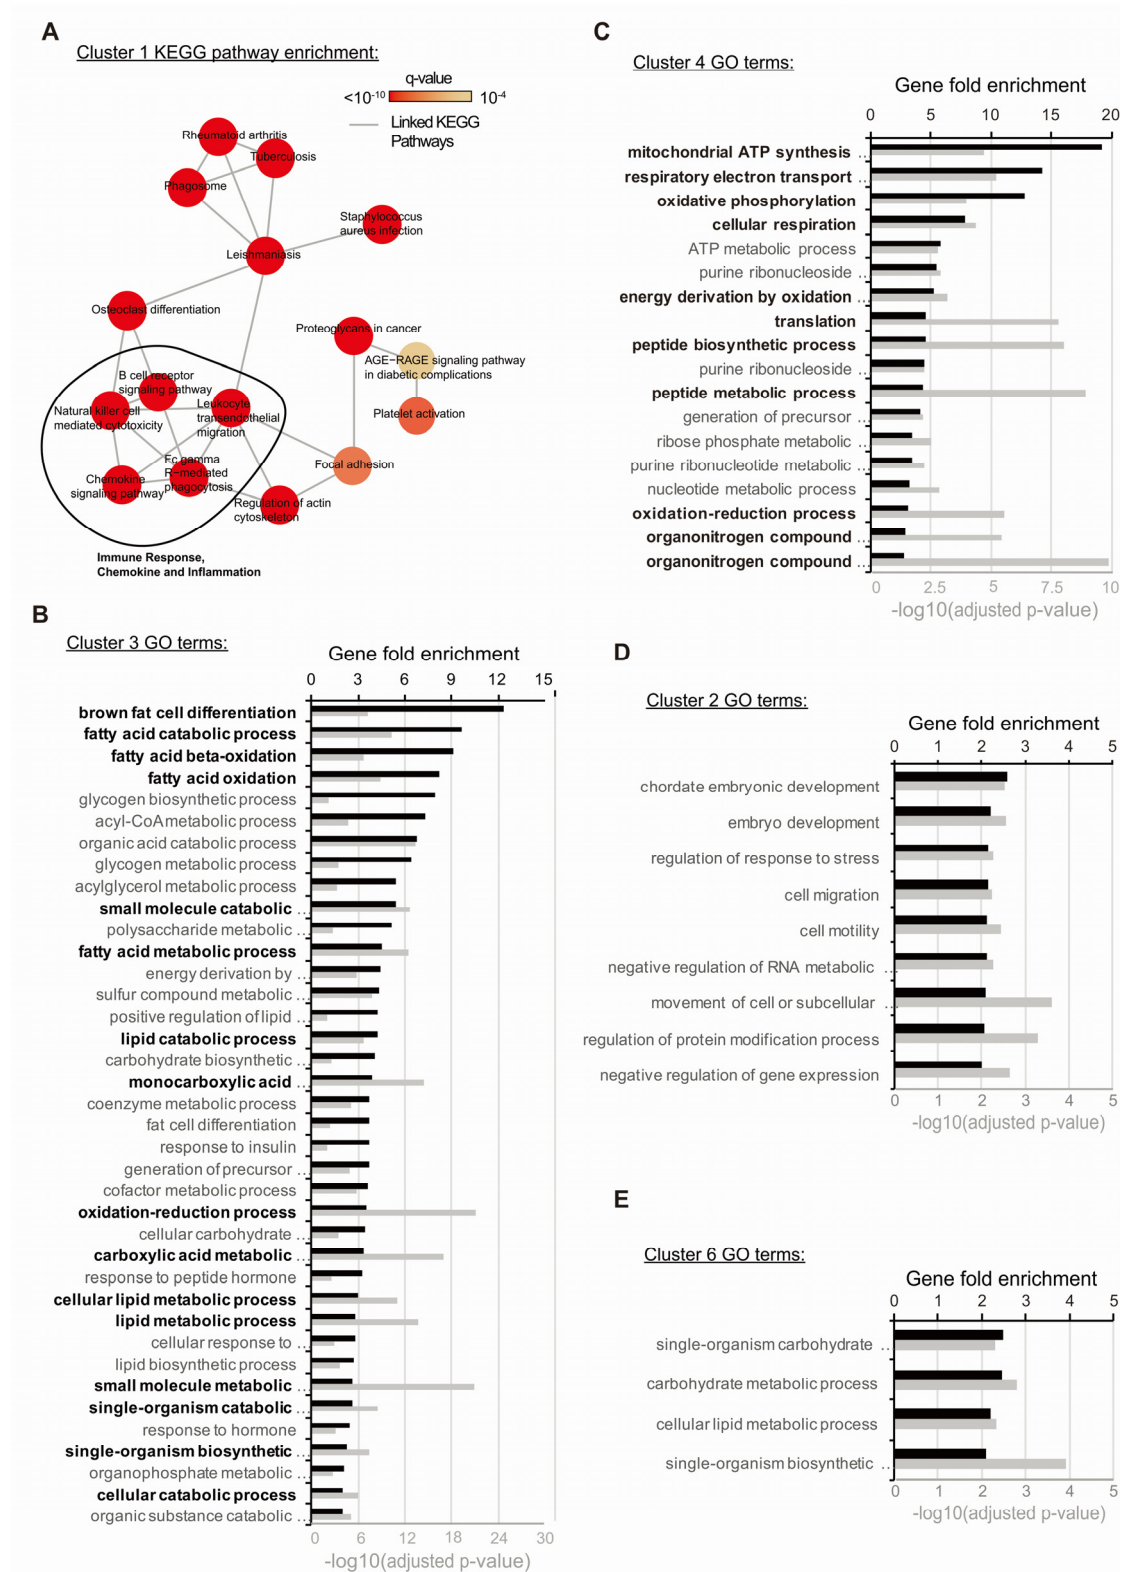

Figure S4 Pathway and GO term analyses on WAT upon IF. (A) KEGG pathway enrichment of the cluster 1 (i.e., higher in HFD-AL mice). (B) GO term analysis of the cluster 3 (i.e., lower in HFD-AL mice). (C) GO term analysis of the cluster 4 (i.e., higher in ND mice). (D) GO term analysis of the cluster 2 (i.e., lower in HFD-IF mice). (E) GO term analysis of the cluster 6 (i.e., higher in HFD-IF mice). GO terms with adjusted P -values $< 10^{-6}$ are in bold. Adjusted P -values were calculated based on Bonferroni correction method.
