**Supplementary Table S1.** Studies included in the meta-analysis of the interaction between 5-HTTLPR polymorphism, life stress, and PTSD

Study Items (+/-)	Objectives and hypothesis clearly stated	Clear eligibility criteria for study	Clear definition of all variables	Statistical methods replicable	Assessment of HWE	Assessment of ethnicity	Mixed ethnicities addressed statistically	Sufficient descriptive data (e.g., age, sex, etc.)	Genotype frequencies stated	Sample in HWE	Population stratification
