

Low circulating levels of the mitochondrial-peptide hormone SHLP2: novel biomarker for prostate cancer risk

SUPPLEMENTARY MATERIALS

Supplementary Table 1: Association between SHLP2 and overall risk of cancer and risk of cancer grade, stratified by race

	OR	White 95% CI	P-value	OR	Black 95% CI	P-value
Multivariable*						
No PC	Ref.			Ref.		
Overall PC	0.82	0.65–1.03	0.090	1.00	0.99–1.01	0.592
No PC	Ref.			Ref.		
Low-grade PC	0.80	0.64–1.00	0.053	1.00	0.98–1.01	0.458
High-grade PC	0.80	0.64–0.996	0.046	1.00	0.99–1.02	0.606

*adjusted for age, BMI, PSA, DRE, year of consent, prostate volume, and family history of prostate cancer.
