

# Circular RNA hsa\_circ\_000984 promotes colon cancer growth and metastasis by sponging miR-106b

## SUPPLEMENTARY MATERIALS

**Supplementary Figure 1:** (A) The expression level of hsa\_circ\_000984 in clinical colorectal cancerous tissues was significantly up-regulated compared with corresponding adjacent normal tissues analyzed by qRT-PCR. (B) The expression level of hsa\_circ\_000984 in colorectal cancerous tissues was significantly higher in patients with a higher pathological stage (III+IV). \* $P < 0.05$ .
