**Understanding Ultraviolet Protection (UV) in
Xeroderma Pigmentosum (XP) Questionnaire**

Xeroderma Pigmentosum National Service

2nd Floor, South Wing

St Thomas' Hospital

Westminster Bridge Road

London SE1 7EH

We are trying to understand more about how having to protect against daylight affects the lives of people who have XP. From the answers we hope to be able to find ways to help patients and their families.

Please answer as many questions as you can. Where you are not sure of an answer, it is fine if you put your best guess.

Remember all the information you give will be treated with the strictest confidence and will be analysed anonymously. The people who look after you in the XP clinic will not see the answers you give.

If you are 12-15 years old and take responsibility for your own UV protection, please look through the questionnaire FIRST to see whether you feel able to complete it on your own. If you do not think you can, or if you are unsure, it is best for your parent or carer to complete one for you instead. They will complete a different version of questionnaire. Please contact our Research Nurse, (***) if you do not have the version for parents or carers.**

Thank you for taking the time to answer this questionnaire. Because XP is rare, every questionnaire that is completed and sent back to us makes a big difference for this research.

Filling out the questionnaire takes about 25 minutes. There are questions on both sides of each page.

The questionnaire is split into different topics:

- **XP and your thoughts about it**
- **What you do to protect yourself from Ultraviolet (UV) in daylight**

Some questions ask about what you usually do and others ask about the last few days or weeks. Some questions look the same as others but are actually different, so please can you try to answer as accurately as you can.

- **Your views about UV protection**
- **General things about you and your quality of life**

Before we ask about your XP, we'd like to find out a few details about you.

1. How old are you now? _____ Years

2. Are you: (please tick) Male or Female

3. I am completing the questionnaire because: (please tick one option)

We would like to ask your personal views about protecting against UV in daylight. This means whatever you do to protect yourself, including:

- avoiding going outside during the day
- putting on sunscreen and lip sunblock
- wearing glasses
- wearing protective clothes (e.g., hat, scarf or face-buff, gloves, long sleeves, long trousers/thick tights)
- or wearing a face visor

These are statements other people have made about their UV protection.

Please indicate the extent to which you agree or disagree with what they have said by circling the answer that best corresponds to your views.

There are no right or wrong answers. We are interested in YOUR PERSONAL VIEWS.
