

Sup Fig. 3

Analysis of chloroplast and cell structure

(A,B) Confocal images of palisade cells in (A) col-0 and (B) *ATML1pro:KRP1* leaves revealing chlorophyll autofluorescence in plastids (red).

(C,D) TEM images of a chloroplast from a palisade cell in (C) col-0 and (D) *ATML1pro:KRP1*.

(E,F) TEM images of cell wall from a palisade cell in (E) col-0 and (F) *ATML1pro:KRP1*.

Scale bar: A,B = 50 μ m; C,D = 2 μ m; E,F = 0.5 μ m
