

Description of Additional Supplementary Files

File Name: Supplementary Data 1

Description: Input file for SFINX analysis

File Name: Supplementary Data 2

Description: Filtered output of the interactome analyses with additional information

File Name: Supplementary Data 3

Description: Filtered output of the protein interactome analyses with datasets from CPH-1BirA or MyoH-BirA

File Name: Supplementary Data 4

Description: Gene Ontology (GO) terms of molecular function for annotated proteins identified in the CPH1-RNG2-MyoH interactome

File Name: Supplementary Data 5

Description: GO terms of Cellular Compartment and Molecular Function for annotated proteins
