

**A** Tg0001 (2,930,226 bp)**B** Tg0352 (266,959 bp)**C** Tg0004 (1,915,860 bp)

**Figure S8. DNA elimination in *Toxocara canis*.** A scaffold that is not eliminated (**A**, Tg0001), that is eliminated (**B**, Tg0352), and a scaffold illustrating both the region retained and eliminated (**C**, Tg0004) is illustrated. RNA expression profiles for germline and somatic tissues are also illustrated. Note eliminated genes are only expressed in the germline tissues.
