Dear Sir

This is to confirm that I give my permission to be acknowledged in Urmas's paper. The title is "Distinct cellular mechanisms underlie smooth muscle turnover in vascular development and repair".

Hi Urmas

Thank you for the acknowledgement.

Hi Grace

I presume you will have to send a similar email..

Hi Pete and Grace,

Our manuscript has been accepted for publication at Circulation Research. Thank you for your advice and help! I would like to acknowledge you both by name. In order to do this could you please send an email to the editorial office, confirming that I have your permission to acknowledge you. It is their publication policy.

CircRes@circresearch.org

I would appreciate it if you could send it today as they want to proceed with the publication. I attach here the nearly final version of the paper. There will likely be press releases by the university and BBSRC in the coming weeks.

The title is "Distinct cellular mechanisms underlie smooth muscle turnover in vascular development and repair".

In case you fancy a drink we'll meet at Kro after work tomorrow.
