

Table S1: The number of dead piglets by age in weeks at field farms with PED.

Farm	Weeks ^a					
	-3	-2	-1	0	1	2
Farm A	67/403	104/401	210/396	380/396	112/401	2/410
Farm B	2/498	44/695	193/522	354/370	284/444	134/459
Farm C	2/190	58/200	444/500	583/596	552/610	109/190

^aWeeks are indicated as follows: 0=the mortality rate of piglets born in the week of PED outbreak, -1, -2 or -3=the mortality rate of piglets in 1, 2, or 3 weeks of age at the week of PED outbreak, respectively, 1 or 2=the mortality rate of piglets born in the next weeks of PED outbreak.
