"A change in state or activity of an organism (in terms of movement, secretion, enzyme producti
"The attachment of a cell, either to another cell or to an underlying substrate such as the extrace

"The immediate defensive reaction (by vertebrate tissue) to infection or injury caused by chemic
A defense response that is mediated by cells [goid 6968] [pmid 1373518] [evidence TAS]; Any s
Any immune system process that functions in the calibrated response of an organism to a poten
Any immune system process that functions in the calibrated response of an organism to a poten
Any immune system process that functions in the calibrated response of an organism to a poten
"The series of events in which a stimulus from a bacterium is received and converted into a mol
Any immune system process that functions in the calibrated response of an organism to a poten
"The clustering and aggregation of membrane rafts at a single cellular pole during activation of p
Any process by which an organism has an effect on an organism of a different species [goid 44
Any immune system process that functions in the calibrated response of an organism to a poten
"A change in state or activity of a cell or an organism (in terms of movement, secretion, enzyme
"The cascade of processes by which a signal interacts with a receptor, causing a change in the
Any series of molecular signals initiated by the binding of an extracellular ligand to a receptor on
"Any process specifically pertinent to the functioning of integrated living units: cells, tissues, orga
"A form of programmed cell death induced by external or internal signals that trigger the activity
"Any immune system process that functions in the calibrated response of an organism to a pote
"The multiplication or reproduction of cells, resulting in the expansion of a cell population [goid 8
"Any process that activates or increases the frequency, rate, or extent of an inflammatory respor
"The aggregation, arrangement and bonding together of a set of components to form a protein c
"The joining together of exons from one or more primary transcripts of nuclear messenger RNA
Any immune system process that functions in the calibrated response of an organism to a poten

"Any process that modulates the frequency, rate or extent of cell growth [goid 1558] [pmid 1072
"The attachment of a cell, either to another cell or to an underlying substrate such as the extrace
"The chemical reactions and pathways involving lipids, compounds soluble in an organic solvent
The posttranslational glycosylation of protein via the N4 atom of peptidyl-asparagine or the N1' a
"The cascade of processes by which a signal interacts with a receptor, causing a change in the
Any series of molecular signals initiated by the binding of an extracellular ligand to a receptor on
"The synthesis of either RNA on a template of DNA or DNA on a template of RNA [goid 6350] [e
"Any series of molecular signals initiated by the binding of an extracellular ligand to a receptor o
"A form of programmed cell death induced by external or internal signals that trigger the activity
"The attachment of a cell, either to another cell or to an underlying substrate such as the extrace
"Any process involved in the activation of any of the steps of the classical pathway of the comple
"The attachment of a cell, either to another cell or to an underlying substrate such as the extrace
"Reactions, triggered in response to the presence of a foreign body or the occurrence of an injur
"Any process that increases the concentration of calcium ions in the cytosol [goid 7204] [pmid 82
"The cascade of processes by which a signal interacts with a receptor, causing a change in the
"Any process involved in the activation of any of the steps of the classical pathway of the comple
The attachment of one cell to another cell via adhesion molecules [goid 16337] [pmid 7544493]

"Any series of molecular signals initiated by the binding of an extracellular ligand to a receptor o

"Any immune system process that functions in the calibrated response of an organism to a pote
"A process that directly activates any of the steps required for cell death by apoptosis [goid 691
"The attachment of a cell, either to another cell or to an underlying substrate such as the extrace
"The chemical reactions and pathways resulting in the formation of prostaglandins, any of a grou
Any immune system process that functions in the calibrated response of an organism to a poten
Any immune system process that functions in the calibrated response of an organism to a poten
"A series of reactions within the cell that occur as a result of a single trigger reaction or compour
"The initiation of the activity of the inactive enzyme MAP kinase by phosphorylation by a MAPKK

"Reactions, triggered in response to the presence of a foreign body or the occurrence of an injur
"Reactions, triggered in response to the presence of a foreign body or the occurrence of an injur
"Any immune system process that functions in the calibrated response of an organism to a pote
"Any process involved in the carrying out of an immune response by a T cell [goid 2456] [eviden
"Any process involved in the controlled movement of a cell [goid 6928] [pmid 8478605] [evidenc
"Any immune system process that functions in the calibrated response of an organism to a pote
"The series of molecular signals generated as a consequence of a peptide neurotransmitter binc
"The attachment of a cell, either to another cell or to an underlying substrate such as the extrace
"The attachment of a cell, either to another cell or to an underlying substrate such as the extrace
"Any series of molecular signals initiated by the binding of an extracellular ligand to a receptor o

"The progression of biochemical and morphological phases and events that occur in a cell durin
The process of removing one or more phosphoric residues from a protein [goid 6470] [pmid 936
"The process resulting in the physical partitioning and separation of a cell into daughter cells [go
"The process of introducing a phosphate group on to a protein [goid 6468] [evidence IEA]; A pro
"The chemical reactions and pathways resulting in the breakdown of a protein or peptide by hyd
"Progression through G1 phase, one of two 'gap' phases in the mitotic cell cycle; G1 is the interv
"Any process that modulates the frequency, rate or extent of CDK activity [goid 79] [pmid 11139
"Progression through M phase, the part of the mitotic cell cycle during which mitosis takes place
"Progression through M phase, the part of the mitotic cell cycle during which mitosis takes place
"The chemical reactions and pathways resulting in the breakdown of a protein or peptide by hyd
"Any process that modulates the frequency, rate or extent of cell growth [goid 1558] [pmid 1088
"The process of introducing a phosphate group on to a protein [goid 6468] [evidence IEA]; Any p
The process of introducing a phosphate group on to a protein [goid 6468] [evidence IEA]; The p
"Progression from G1 phase to S phase of the mitotic cell cycle [goid 82] [pmid 8248134] [evide
"Any process that modulates the frequency, rate or extent of CDK activity [goid 79] [pmid 86662
The process resulting in the physical partitioning and separation of a cell into daughter cells [goi
"The joining together of exons from one or more primary transcripts of nuclear messenger RNA
"The directed movement of the nucleus [goid 7097] [evidence IEA]; Any series of molecular sign
"A series of reactions within the cell that occur as a result of a single trigger reaction or compour
"The process of introducing a phosphate group on to a protein [goid 6468] [evidence ISS]; A pro

"The process of introducing a phosphate group on to a protein [goid 6468] [pmid 15194684] [evi
"Control of the spatial distribution of actin filaments; includes organizing filaments into meshwor
"The cascade of processes by which a signal interacts with a receptor, causing a change in the
"A series of molecular signals within the cell that are mediated by a member of the Rho family o
"A cascade of protein kinase activities, culminating in the phosphorylation and activation of a me
"The process whereby phagocytes engulf external particulate material. The particles are initially
"The process whereby phagocytes engulf external particulate material. The particles are initially
"A signal transduction based surveillance mechanism that prevents the initiation of mitosis until
"Any process that modulates the frequency, rate or extent of DNA-dependent transcription [goid
"A signal transduction based surveillance mechanism that prevents the initiation of mitosis until
"The process of introducing a phosphate group on to a protein [goid 6468] [evidence IEA]; The p
"The synthesis of either RNA on a template of DNA or DNA on a template of RNA [goid 6350] [e

"The progression of biochemical and morphological phases and events that occur in a cell durin
"The chemical reactions and pathways resulting in the breakdown of a protein or peptide by hyd

"Progression from G1 phase to S phase of the mitotic cell cycle [goid 82] [pmid 15837422] [evid
"The synthesis of either RNA on a template of DNA or DNA on a template of RNA [goid 6350] [e
"The synthesis of either RNA on a template of DNA or DNA on a template of RNA [goid 6350] [e
"The progression of biochemical and morphological phases and events that occur in a cell durin

The attachment of an adhesion molecule in one cell to an identical molecule in an adjacent cell
"The attachment of a cell, either to another cell or to an underlying substrate such as the extrace
"The directed movement of substances (such as macromolecules, small molecules, ions) into, o
"The attachment of a cell, either to another cell or to an underlying substrate such as the extrace
"The attachment of a cell, either to another cell or to an underlying substrate such as the extrace
The attachment of an adhesion molecule in one cell to an identical molecule in an adjacent cell
"The attachment of a cell, either to another cell or to an underlying substrate such as the extrace
The attachment of an adhesion molecule in one cell to an identical molecule in an adjacent cell
"The chemical reactions and pathways resulting in the formation of phospholipids, any lipid cont
"The process of introducing a phosphate group on to a protein [goid 6468] [evidence IEA]; The p
"Progression from G2 phase to M phase of the mitotic cell cycle [goid 86] [pmid 1653904] [evide
"Progression through S phase, the part of the mitotic cell cycle during which DNA synthesis take

"The process of introducing a phosphate group on to a protein [goid 6468] [evidence IEA]; The p
"The process of introducing a phosphate group on to a protein [goid 6468] [evidence IEA]; Progr
"The process of introducing a phosphate group on to a protein [goid 6468] [evidence IEA]; The p
"Any process that modulates the frequency, rate or extent of CDK activity [goid 79] [pmid 75929
"Any process that modulates the frequency, rate or extent of CDK activity [goid 79] [pmid 75929
mRNA."
"The process whose specific outcome is the progression of the brain over time, from its formatio
"Any process that modulates the frequency, rate or extent of CDK activity [goid 79] [evidence IS
"Progression through G1 phase, one of two 'gap' phases in the mitotic cell cycle; G1 is the interv
"Any process that modulates the frequency, rate or extent of CDK activity [goid 79] [pmid 75338

"The process of introducing a phosphate group on to a protein [goid 6468] [evidence IEA]; The s
"The synthesis of either RNA on a template of DNA or DNA on a template of RNA [goid 6350] [e
"The chemical reactions and pathways, including anabolism and catabolism, by which living orga
The process of introducing a phosphate group on to a protein [goid 6468] [pmid 1639063] [evide
"The process of introducing a phosphate group on to a protein [goid 6468] [evidence IEA]; The c
"The covalent alteration of one or more amino acids occurring in proteins, peptides and nascent
"Progression from G1 phase to S phase of the mitotic cell cycle [goid 82] [pmid 10208428] [evid
"The process by which the cell cycle is halted during one of the normal phases (G1, S, G2, M) [g
"Any process that stops, prevents or reduces the frequency, rate or extent of transcription from a
"The cleavage of DNA during apoptosis, which usually occurs in two stages: cleavage into fragm

"Any process that modulates the frequency, rate or extent of CDK activity [goid 79] [pmid 80785
"Any process that modulates the frequency, rate or extent of CDK activity [goid 79] [pmid 80018
"Any process that modulates the frequency, rate or extent of CDK activity [goid 79] [pmid 87418
"Any process that modulates the frequency, rate or extent of CDK activity [goid 79] [pmid 82427

"The chemical reactions and pathways resulting in the formation of amino acids containing sulfu

"Any process specifically pertinent to the functioning of integrated living units: cells, tissues, orga
"The chemical reactions and pathways resulting in the formation of phospholipids, any lipid cont
"A signal transduction based surveillance mechanism that prevents the initiation of mitosis until
"The multiplication or reproduction of cells, resulting in the expansion of a cell population [goid 8
"The formation or destruction of chromatin structures [goid 6333] [evidence IEA]; The process o
"Blood vessel formation when new vessels emerge from the proliferation of pre-existing blood ve
script variant 1, mRNA."
"The chemical reactions and pathways resulting in the formation of precursor metabolites, subst
"The embryonically driven process whose specific outcome is the progression of the placenta ov
"The synthesis of either RNA on a template of DNA or DNA on a template of RNA [goid 6350] [e
"The synthesis of either RNA on a template of DNA or DNA on a template of RNA [goid 6350] [e
"The process whose specific outcome is the progression of the liver over time, from its formation
"The synthesis of either RNA on a template of DNA or DNA on a template of RNA [goid 6350] [e
"The biological process whose specific outcome is the progression of a multicellular organism ov
"The chemical reactions and pathways, including anabolism and catabolism, by which living orga

RNA."
"The chemical reactions and pathways resulting in the breakdown of cholesterol, cholest-5-en-3
"Any process specifically pertinent to the functioning of integrated living units: cells, tissues, orga
"Coordinated organization of groups of cells in the plane of an epithelium, such that they all orie
"The attachment of an adhesion molecule in one cell to an identical molecule in an adjacent cell
"The attachment of an adhesion molecule in one cell to an identical molecule in an adjacent cell

"The aggregation, arrangement and bonding together of a nucleosome, the beadlike structural u
"Any process that modulates the frequency, rate or extent of the synthesis of either RNA on a te

"Progression through metaphase, the stage of mitosis at which chromosomes are firmly attache
"Progression through G2 phase, one of two 'gap' phases in the mitotic cell cycle; G2 is the interv
"A process that is carried out at the cellular level which results in the formation, arrangement of
The establishment of the sex of an organism by physical differentiation [goid 7548] [pmid 89213
"The 'de novo' formation of a microtubule, in which tubulin heterodimers form metastable oligom
"Any process that activates or increases the frequency, rate or extent of transcription from the R

Any series of molecular signals initiated by the binding of an extracellular ligand to a receptor on
Any process that modulates the activity of the GTPase ARF [goid 32312] [evidence IEA]
Any series of molecular signals in which a small monomeric GTPase relays one or more of the s
"The progression of biochemical and morphological phases and events that occur in a cell durin

"Progression through the phases of the mitotic cell cycle, the most common eukaryotic cell cycle
"The directed movement of proteins into, out of, within or between cells [goid 15031] [evidence I

"The progression of biochemical and morphological phases and events that occur in a cell durin
"The vectorial transfer of a protein from the cytoplasm into the nucleus, through the nuclear pore

"The chemical reactions and pathways involving lipids, compounds soluble in an organic solvent
"Any process involved in the controlled movement of a cell [goid 6928] [pmid 10608765] [eviden
"The chemical reactions and pathways involving ceramides, any N-acylated sphingoid [goid 667
"The initiation of the activity of the inactive enzyme protein kinase C as the result of a series of r
"The chemical reactions and pathways resulting in the breakdown of substances, including the b

"The progression of biochemical and morphological phases and events that occur in a cell durin
"The progression of biochemical and morphological phases and events that occur in a cell durin
"The chemical reactions and pathways involving lipids, compounds soluble in an organic solvent
The hydrolysis of a peptide bond or bonds within a protein [goid 6508] [evidence IEA]; Any proce
"The biological process whose specific outcome is the progression of a multicellular organism ov
The hydrolysis of a peptide bond or bonds within a protein [goid 6508] [pmid 1374388] [evidence
"A process which directly inhibits any of the steps required for cell death by apoptosis [goid 6916
Any process involved in the activation of any of the steps of the alternative pathway of the comp
"A cellular process resulting in the division of the cytoplasm of a cell and its separation into two c

"The hydrolysis of a peptide bond or bonds within a protein [goid 6508] [evidence IEA]; A proces
"A form of programmed cell death induced by external or internal signals that trigger the activity

"The synthesis of either RNA on a template of DNA or DNA on a template of RNA [goid 6350] [e

"Any process specifically pertinent to the functioning of integrated living units: cells, tissues, orga

"A change in state or activity of a cell or an organism (in terms of movement, secretion, enzyme
"The chemical reactions and pathways involving lipids, compounds soluble in an organic solvent
"Any process specifically pertinent to the functioning of integrated living units: cells, tissues, orga
"Any process specifically pertinent to the functioning of integrated living units: cells, tissues, orga
"The process whereby new strands of DNA are synthesized. The template for replication can eit

"The formation or destruction of chromatin structures [goid 6333] [evidence IEA]; Any process th
"The formation or destruction of chromatin structures [goid 6333] [evidence IEA]; Dynamic struct
"The process whose specific outcome is the progression of the blood vessel over time, from its f
"The process whose specific outcome is the progression of the embryo in the uterus over time, f
"The formation or destruction of chromatin structures [goid 6333] [evidence IEA]; The synthesis

"The chemical reactions and pathways involving alcohols, any of a class of compounds containi
"A signal transduction pathway, induced by DNA damage, that blocks cell cycle progression (in
"A signal transduction pathway, induced by DNA damage, that blocks cell cycle progression (in
"Any process involved in the conversion of one or more primary RNA transcripts into one or mor

The process that modulates the force with which blood travels through the circulatory system. Tl

"The chemical reactions and pathways involving carbohydrates, any of a group of organic comp
"The chemical reactions and pathways involving carbohydrates, any of a group of organic comp
"Any process specifically pertinent to the functioning of integrated living units: cells, tissues, orga
"The chemical reactions and pathways involving lipids, compounds soluble in an organic solvent
"The chemical reactions and pathways resulting in the formation of phosphatidylcholines, any of
"The directed movement of proteins in a cell, including the movement of proteins between speci
"The directed movement of proteins in a cell, including the movement of proteins between speci
"The synthesis of either RNA on a template of DNA or DNA on a template of RNA [goid 6350] [e
"The directed movement of proteins into, out of, within or between cells [goid 15031] [evidence I
"The directed movement of proteins into, out of, within or between cells [goid 15031] [evidence I
"The directed movement of proteins into, out of, within or between cells [goid 15031] [evidence I
"The directed movement of proteins into, out of, within or between cells [goid 15031] [evidence I
"The directed movement of proteins into, out of, within or between cells [goid 15031] [evidence I
"The directed movement of proteins into, out of, within or between cells [goid 15031] [evidence I
"Any process that modulates the frequency, rate, or extent of receptor recyling [goid 1919] [evid
"The directed movement of proteins into, out of, within or between cells [goid 15031] [evidence I
"The directed movement of proteins into, out of, within or between cells [goid 15031] [evidence I
"A series of reactions within the cell that occur as a result of a single trigger reaction or compour
"The process whose specific outcome is the progression of the muscle over time, from its forma
"Any process specifically pertinent to the functioning of integrated living units: cells, tissues, orga
"The directed movement of potassium ions (K+) into, out of, within or between cells [goid 6813]

"Any process that modulates the frequency, rate or extent of cell growth [goid 1558] [pmid 1089
Dynamic structural changes to eukaryotic chromatin occurring throughout the cell division cycle.
"The process whose specific outcome is the progression of the skeleton over time, from its form
"The directed movement of charged atoms or small charged molecules into, out of, within or bet
"The directed movement of charged atoms or small charged molecules into, out of, within or bet
"The directed movement of charged atoms or small charged molecules into, out of, within or bet
"The directed movement of charged atoms or small charged molecules into, out of, within or bet
"The directed movement of charged atoms or small charged molecules into, out of, within or bet
"Any process that activates, maintains or increases the frequency, rate or extent of heart contra
"The maintenance of membrane composition in a postsynaptic membrane, the specialized area
"The chemical reactions and pathways involving polysaccharides, a polymer of more than 10 m
"The chemical reactions and pathways involving carbohydrates, any of a group of organic comp
"The chemical reactions and pathways involving carbohydrates, any of a group of organic comp
"The chemical reactions and pathways involving carbohydrates, any of a group of organic comp

15), mRNA."
"The chemical reactions and pathways involving carbohydrates, any of a group of organic comp
"The chemical reactions and pathways involving carbohydrates, any of a group of organic comp
"The chemical reactions and pathways involving polysaccharides, a polymer of more than 10 m
"The chemical reactions and pathways involving carbohydrates, any of a group of organic comp

"The process whereby new strands of DNA are synthesized. The template for replication can eit
"The process whereby new strands of DNA are synthesized. The template for replication can eit
Any immune system process that functions in the calibrated response of an organism to a poter
"Any process that modulates the frequency, rate or extent of DNA-dependent transcription [goid
"Any process that modulates the frequency, rate or extent of transcription from an RNA polymer
"A form of programmed cell death induced by external or internal signals that trigger the activity
"The repair of double-strand breaks in DNA via homologous and nonhomologous mechanisms t
Any series of molecular signals generated as a consequence of an integrin binding to one of its
"The synthesis of either RNA on a template of DNA or DNA on a template of RNA [goid 6350] [e
RNA."
"A form of programmed cell death induced by external or internal signals that trigger the activity
A."
"Any process that modulates the frequency, rate or extent of the synthesis of either RNA on a te
"Any process that stops, prevents or reduces the frequency, rate or extent of insulin-like growth
"The process whereby new strands of DNA are synthesized. The template for replication can eit

"A change in state or activity of a cell or an organism (in terms of movement, secretion, enzyme
"Any process specifically pertinent to the functioning of integrated living units: cells, tissues, orga

"Any process that modulates the frequency, rate or extent of cellular respiration, the enzymatic r
"Any process that modulates the frequency, rate or extent of cell growth [goid 1558] [pmid 9465
"The differentiation of endothelial cells from progenitor cells during blood vessel development, a
"A change in state or activity of a cell or an organism (in terms of movement, secretion, enzyme
"Any process that modulates the frequency, rate or extent of DNA-dependent transcription [goid
"A form of programmed cell death induced by external or internal signals that trigger the activity

"Any cellular process that results in the specification, formation or maintenance of polarized mic
"The chemical reactions and pathways involving creatine (N-(aminoiminomethyl)-N-methylglycin
"The directed movement of a motile cell or organism, or the directed growth of a cell guided by a
"The chemical reactions and pathways involving creatine (N-(aminoiminomethyl)-N-methylglycin
rial protein, mRNA."
"The chemical reactions and pathways involving creatine (N-(aminoiminomethyl)-N-methylglycin
"The progression of biochemical and morphological phases and events that occur in a cell durin
"Any process that modulates the frequency, rate or extent of CDK activity [goid 79] [pmid 22274
"A process that results in a parallel arrangement of microtubules [goid 1578] [pmid 12837247] [e
"Any process that stops, prevents or reduces the frequency, rate or extent of microtubule depoly

"The biological process whose specific outcome is the progression of a multicellular organism ov
"The directed movement of charged atoms or small charged molecules into, out of, within or bet
"The directed movement of substances (such as macromolecules, small molecules, ions) into, o

"Any process by which STAT proteins (Signal Transducers and Activators of Transcription) are a
"The directed movement of charged atoms or small charged molecules into, out of, within or bet
"The directed movement of chloride into, out of, within or between cells [goid 6821] [evidence IE
"The directed movement of charged atoms or small charged molecules into, out of, within or bet
"The directed movement of chloride into, out of, within or between cells [goid 6821] [evidence IE
"The directed movement of charged atoms or small charged molecules into, out of, within or bet
"The directed movement of chloride into, out of, within or between cells [goid 6821] [evidence IE
"The directed movement of chloride into, out of, within or between cells [goid 6821] [evidence IE
"The directed movement of chloride into, out of, within or between cells [goid 6821] [evidence IE
"The attachment of a cell, either to another cell or to an underlying substrate such as the extrace
The attachment of one cell to another cell via adhesion molecules that do not require the preser
"The aggregation, arrangement and bonding together of a set of components to form a protein c
The attachment of one cell to another cell via adhesion molecules that do not require the preser
"The series of events required for an organism to receive a visual stimulus, convert it to a molec
The attachment of one cell to another cell via adhesion molecules that do not require the preser
The attachment of one cell to another cell via adhesion molecules that do not require the preser
The attachment of one cell to another cell via adhesion molecules that do not require the preser

The set of specific processes that generate the ability of an organism to cause disease in anothe
The attachment of one cell to another cell via adhesion molecules that do not require the preser
The attachment of one cell to another cell via adhesion molecules that do not require the preser

A type of vesicle-mediated transport in which cells take up external materials or membrane cons
Any process that activates or increases the rate or extent of cell proliferation [goid 8284] [pmid 1

Any series of molecular signals initiated by the binding of an extracellular ligand to a receptor on

"Any immune system process that functions in the calibrated response of an organism to a pote
Any immune system process that functions in the calibrated response of an organism to a poten
Any immune system process that functions in the calibrated response of an organism to a poten
A type of vesicle-mediated transport in which cells take up external materials or membrane cons

Any immune system process that functions in the calibrated response of an organism to a poten
"The series of events in which a stimulus from a yeast is received and converted into a molecula

The process of assisting in the covalent and noncovalent assembly of single chain polypeptides
"The directed movement of charged atoms or small charged molecules into, out of, within or bet
"The directed movement of charged atoms or small charged molecules into, out of, within or bet
"The directed movement of charged atoms or small charged molecules into, out of, within or bet
"The directed movement of charged atoms or small charged molecules into, out of, within or bet
"The directed movement of charged atoms or small charged molecules into, out of, within or bet
A type of vesicle-mediated transport in which cells take up external materials or membrane cons
"Progression through mitosis, the division of the eukaryotic cell nucleus to produce two daughte

"The directed movement of substances (such as macromolecules, small molecules, ions) into, o
A series of reactions within the cell that occur as a result of a single trigger reaction or compoun
"Any process that modulates the frequency, rate or extent of signal transduction [goid 9966] [evi
"A process that is carried out at the cellular level which results in the formation, arrangement of
"A process that is carried out at the cellular level which results in the formation, arrangement of
"The directed movement of charged atoms or small charged molecules into, out of, within or bet
"The directed movement of charged atoms or small charged molecules into, out of, within or bet
"The directed movement of charged atoms or small charged molecules into, out of, within or bet
"A process that is carried out at the cellular level which results in the formation, arrangement of
"The synthesis of either RNA on a template of DNA or DNA on a template of RNA [goid 6350] [e

"Any process that modulates the frequency, rate or extent of DNA-dependent transcription [goid
"Any process that modulates the frequency, rate or extent of DNA-dependent transcription [goid
"The synthesis of either RNA on a template of DNA or DNA on a template of RNA [goid 6350] [e
"The synthesis of either RNA on a template of DNA or DNA on a template of RNA [goid 6350] [e
Any process involved in the conversion of a primary mRNA transcript into one or more mature m
"The chemical reactions and pathways involving carbohydrates, any of a group of organic comp
"The synthesis of either RNA on a template of DNA or DNA on a template of RNA [goid 6350] [e
"The process of communication from a neuron to a target (neuron, muscle, or secretory cell) acr

"The cascade of processes by which a signal interacts with a receptor, causing a change in the
"Any immune system process that functions in the calibrated response of an organism to a pote
mRNA."
"The cascade of processes by which a signal interacts with a receptor, causing a change in the
"The characteristic movement of immature neurons from germinal zones to specific positions wh
"The attachment of a cell, either to another cell or to an underlying substrate such as the extrace
"The directed movement of a motile cell or organism, or the directed growth of a cell guided by a
"The attachment of a cell, either to another cell or to an underlying substrate such as the extrace
"The chemical reactions and pathways resulting in the formation of substances; typically the ene

"Any process that modulates the frequency, rate or extent of DNA-dependent transcription [goid
"The series of events required for an organism to receive an auditory stimulus, convert it to a mo
"The directed movement of substances within the Golgi, mediated by small transport vesicles. T
"The addition of a sugar unit to a protein amino acid, e.g. the addition of glycan chains to proteir

"The directed movement of proteins into, out of, within or between cells [goid 15031] [evidence I
"The directed movement of substances within the Golgi, mediated by small transport vesicles. T
"The directed movement of proteins into, out of, within or between cells [goid 15031] [evidence I
"The addition of a sugar unit to a protein amino acid, e.g. the addition of glycan chains to proteir

The attachment of one cell to another cell via adhesion molecules [goid 16337] [pmid 9427527]
"Blood vessel formation when new vessels emerge from the proliferation of pre-existing blood ve
"The attachment of a cell, either to another cell or to an underlying substrate such as the extrace
"The process whose specific outcome is the progression of the skeleton over time, from its form
"The process whose specific outcome is the progression of the skeleton over time, from its form

"The attachment of a cell, either to another cell or to an underlying substrate such as the extrace
"A process that directly activates any of the steps required for cell death by apoptosis [goid 691
"The attachment of a cell, either to another cell or to an underlying substrate such as the extrace
"Any process that determines the size and arrangement of collagen fibrils within an extracellular
"The attachment of a cell, either to another cell or to an underlying substrate such as the extrace
"The attachment of a cell, either to another cell or to an underlying substrate such as the extrace
"The attachment of one cell to another cell via adhesion molecules [goid 16337] [pmid 2019595]
"The process whose specific outcome is the progression of the skeleton over time, from its form

"The chemical reactions and pathways resulting in the breakdown of acetylcholine that occurs in

"Any process that stops, prevents or reduces the frequency, rate or extent of transcription [goid

"A series of reactions within the cell that occur as a result of a single trigger reaction or compour
"The chemical reactions and pathways, including anabolism and catabolism, by which living orga
"A change in state or activity of a cell or an organism (in terms of movement, secretion, enzyme

"A change in state or activity of a cell or an organism (in terms of movement, secretion, enzyme
The chemical reactions and pathways resulting in the breakdown of unfolded or misfolded prote
"The chemical reactions and pathways resulting in the breakdown of a protein or peptide by hyd

"The cleavage of DNA during apoptosis, which usually occurs in two stages: cleavage into fragm
"The cleavage of DNA during apoptosis, which usually occurs in two stages: cleavage into fragm
"The series of events required for an organism to receive an auditory stimulus, convert it to a mo

"The chemical reactions and pathways involving triacylglycerol, any triester of glycerol. The thre
"The chemical reactions and pathways involving glycerol, 1,2,3-propanetriol, a sweet, hygroscop
"Any process involved in the conversion of a primary mRNA transcript into one or more mature r
"The attachment of a cell, either to another cell or to an underlying substrate such as the extrace
"The attachment of a cell, either to another cell or to an underlying substrate such as the extrace

Any process involved in the conversion of a primary microRNA transcript into a pre-microRNA m
The initiation of the activity of the inactive enzyme protein kinase C as the result of a series of m
"The series of molecular signals generated as a consequence of an epidermal growth factor rec
"The initiation of the activity of the inactive enzyme protein kinase C as the result of a series of r
The initiation of the activity of the inactive enzyme protein kinase C as the result of a series of m
"The chemical reactions and pathways involving nucleobases, nucleosides, nucleotides and nuc
"The chemical reactions and pathways resulting in the formation of cholesterol, cholest-5-en-3 b
"The process whose specific outcome is the progression of the blood vessel over time, from its f
"The chemical reactions and pathways, including anabolism and catabolism, by which living orga
"The chemical reactions and pathways involving carbohydrates, any of a group of organic comp
"The chemical reactions and pathways resulting in the formation of glycine, aminoethanoic acid
"The hydrolysis of a peptide bond or bonds within a protein [goid 6508] [evidence IEA]; Any proc
"The chemical reactions and pathways resulting in the formation of pyrimidine bases, 1,3-diazine
The process of removal or addition of one or more electrons with or without the concomitant rem
The process of removal or addition of one or more electrons with or without the concomitant rem
The process of removal or addition of one or more electrons with or without the concomitant rem
The process of removal or addition of one or more electrons with or without the concomitant rem
"The process of removal or addition of one or more electrons with or without the concomitant rem
The process of removal or addition of one or more electrons with or without the concomitant rem
The process of removal or addition of one or more electrons with or without the concomitant rem
The process of removal or addition of one or more electrons with or without the concomitant rem
The process of removal or addition of one or more electrons with or without the concomitant rem
The process of removal or addition of one or more electrons with or without the concomitant rem
The process of removal or addition of one or more electrons with or without the concomitant rem
"The chemical reactions and pathways resulting in the breakdown of a monosaccharide (genera
Any process involved in the conversion of a primary mRNA transcript into one or more mature m
Any process involved in the conversion of a primary mRNA transcript into one or more mature m

A."

A."
Any process involved in the conversion of a primary mRNA transcript into one or more mature m

"The joining together of exons from one or more primary transcripts of nuclear messenger RNA
DHX40), mRNA."
Innate immune responses are defense responses mediated by germline encoded components t
Any process involved in the conversion of a primary mRNA transcript into one or more mature m
"The joining together of exons from one or more primary transcripts of nuclear messenger RNA
"A form of programmed cell death induced by external or internal signals that trigger the activity
"The series of events required for an organism to receive an auditory stimulus, convert it to a mo
"A process that is carried out at the cellular level which results in the formation, arrangement of
"Blood vessel formation when new vessels emerge from the proliferation of pre-existing blood ve

The covalent alteration of one or more nucleotides within an rRNA molecule to produce an rRNA
"The biological process whose specific outcome is the progression of a multicellular organism ov
"The chemical reactions and pathways, including anabolism and catabolism, by which living orga
"The chemical reactions and pathways, including anabolism and catabolism, by which living orga
Any series of molecular signals in which a small monomeric GTPase relays one or more of the s
"Any process that modulates the frequency, rate or extent of CDK activity [goid 79] [pmid 98747

"The directed movement of substances (such as macromolecules, small molecules, ions) into, o

The biological process whose specific outcome is the progression of a multicellular organism ov

The biological process whose specific outcome is the progression of a multicellular organism ov

The process by which anatomical structures are generated and organized. Morphogenesis perta
"The chemical reactions and pathways resulting in the formation of acetyl-CoA, a derivative of c
Any process that maintains the redox environment of a cell or compartment within a cell [goid 45
"Any process that stops, prevents or reduces the rate or extent of progression through the cell c
"Any process that stops, prevents or reduces the rate or extent of progression through the cell c

"Any process by which a protein is transported to, or maintained in, a specific location [goid 810

"Any process that stops, prevents or reduces the rate or extent of cell proliferation [goid 8285] [p
"Steps required to form an initiated synaptic vesicle into a fully formed and transmissible synapti
iant 3, mRNA."
"Progression through M phase, the part of the mitotic cell cycle during which mitosis takes place

"Process involved in cell fate commitment. Once determination has taken place, a cell becomes
"The process whose specific outcome is the progression of the skeleton over time, from its form
"A nearly universal metabolic pathway in which the acetyl group of acetyl coenzyme A is effectiv
"The process whereby relatively unspecialized cells, e.g. embryonic or regenerative cells, acquir
"Any process that modulates the frequency, rate or extent of DNA-dependent transcription [goid

"Any process that modulates the frequency, rate or extent of cell growth [goid 1558] [evidence IE
"Any process that modulates the frequency, rate or extent of DNA-dependent transcription [goid
"The chemical reactions and pathways involving DNA, deoxyribonucleic acid, one of the two ma

"The synthesis of either RNA on a template of DNA or DNA on a template of RNA [goid 6350] [e
"The synthesis of either RNA on a template of DNA or DNA on a template of RNA [goid 6350] [e
"Any process that modulates the frequency, rate or extent of DNA-dependent transcription [goid
"Any process that modulates the frequency, rate or extent of DNA-dependent transcription [goid
"Progression through the nuclear division phase of a meiotic cell cycle, the specialized nuclear a
The hydrolysis of a peptide bond or bonds within a protein [goid 6508] [evidence IEA]

The process whereby new strands of DNA are synthesized. The template for replication can eith
"Cell motility due to movement of cilia or flagella [goid 1539] [pmid 9256245] [evidence NAS]; M
"Cell motility due to movement of cilia or flagella [goid 1539] [pmid 9256245] [evidence NAS]; M
"A process that is carried out at the cellular level which results in the formation, arrangement of
"The process of assisting in the covalent and noncovalent assembly of single chain polypeptides

The process of assisting in the covalent and noncovalent assembly of single chain polypeptides
The process of assisting in the covalent and noncovalent assembly of single chain polypeptides
The process of assisting in the covalent and noncovalent assembly of single chain polypeptides
"The process of assisting in the covalent and noncovalent assembly of single chain polypeptides
The process of assisting in the covalent and noncovalent assembly of single chain polypeptides
The process of assisting in the covalent and noncovalent assembly of single chain polypeptides
The process of assisting in the covalent and noncovalent assembly of single chain polypeptides
"The process of assisting in the covalent and noncovalent assembly of single chain polypeptides
"The process of assisting in the covalent and noncovalent assembly of single chain polypeptides
"The process of assisting in the covalent and noncovalent assembly of single chain polypeptides
"The process of assisting in the covalent and noncovalent assembly of single chain polypeptides
The process of assisting in the covalent and noncovalent assembly of single chain polypeptides
"Any process that modulates the frequency, rate or extent of the chemical reactions and pathwa
The process of assisting in the covalent and noncovalent assembly of single chain polypeptides

The process of assisting in the covalent and noncovalent assembly of single chain polypeptides
"The process of assisting in the covalent and noncovalent assembly of single chain polypeptides

The process of assisting in the covalent and noncovalent assembly of single chain polypeptides
The process of assisting in the covalent and noncovalent assembly of single chain polypeptides
The process of assisting in the covalent and noncovalent assembly of single chain polypeptides
"The process of assisting in the covalent and noncovalent assembly of single chain polypeptides
mRNA."
1, mRNA."

2, mRNA."
"A change in state or activity of a cell or an organism (in terms of movement, secretion, enzyme
The process of assisting in the covalent and noncovalent assembly of single chain polypeptides
"The process of assisting in the covalent and noncovalent assembly of single chain polypeptides
The process of assisting in the covalent and noncovalent assembly of single chain polypeptides
The process of assisting in the covalent and noncovalent assembly of single chain polypeptides

The process of assisting in the covalent and noncovalent assembly of single chain polypeptides
"The joining together of exons from one or more primary transcripts of nuclear messenger RNA

"Movement of organelles, other microtubules and other particles along microtubules, mediated b
Any process involved in the controlled movement of a cell [goid 6928] [pmid 9284741] [evidence
"The chemical reactions and pathways resulting in the breakdown of DNA, deoxyribonucleic acid
"The chemical reactions and pathways resulting in the breakdown of DNA, deoxyribonucleic acid
"The chemical reactions and pathways resulting in the breakdown of DNA, deoxyribonucleic acid

"The cleavage of DNA during apoptosis, which usually occurs in two stages: cleavage into fragm
"The chemical reactions and pathways resulting in the breakdown of DNA, deoxyribonucleic acic

"The characteristic movement of immature neurons from germinal zones to specific positions wh
"Movement of organelles, other microtubules and other particles along microtubules, mediated b
"Movement of organelles, other microtubules and other particles along microtubules, mediated b

"A process that is carried out at the cellular level which results in the formation, arrangement of
"Progression from G2 phase to M phase of the mitotic cell cycle [goid 86] [pmid 7590285] [evide
A type of vesicle-mediated transport in which cells take up external materials or membrane cons
"Any process that stops, prevents or reduces the frequency, rate or extent of transcription from a
The covalent transfer of a methyl group to either N-6 of adenine or C-5 or N-4 of cytosine [goid 6
"The covalent transfer of a methyl group to either N-6 of adenine or C-5 or N-4 of cytosine [goid
"The process whose specific outcome is the progression of the embryo in the uterus over time, f
"The hydrolysis of a peptide bond or bonds within a protein [goid 6508] [evidence IEA]; The cher
"The process whereby new strands of DNA are synthesized. The template for replication can eit

"The synthesis of either RNA on a template of DNA or DNA on a template of RNA [goid 6350] [e
"The directed movement of substances (such as macromolecules, small molecules, ions) into, o

"The clustering and aggregation of membrane rafts at a single cellular pole during activation of p

"A process that is carried out at the cellular level which results in the formation, arrangement of

"Any process specifically pertinent to the functioning of integrated living units: cells, tissues, orga
"The posttranslational modification of peptidyl-lysine to form hypusine, N6-(4-amino-2-hydroxybu
A series of molecular signals within the cell that are mediated by a member of the Ras superfam
"Cascade of at least three protein kinase activities culminating in the phosphorylation and activa

The posttranslational glycosylation of protein via the N4 atom of peptidyl-asparagine or the N1' a

"The biological process whose specific outcome is the progression of a multicellular organism ov
"The directed movement of substances from the Golgi to early sorting endosomes. Clathrin vesi
"The directed movement of substances from the Golgi to early sorting endosomes. Clathrin vesi
"The alteration of DNA or protein in chromatin, which may result in changing the chromatin struc
"The chemical reactions and pathways resulting in the formation of dolichols, any 2,3-dihydropol

The hydrolysis of a peptide bond or bonds within a protein [goid 6508] [evidence IEA]; The hydr
"The synthesis of either RNA on a template of DNA or DNA on a template of RNA [goid 6350] [e
"The synthesis of either RNA on a template of DNA or DNA on a template of RNA [goid 6350] [e
"The synthesis of either RNA on a template of DNA or DNA on a template of RNA [goid 6350] [e
"The chemical reactions and pathways resulting in the formation of a protein. This is a ribosome

"The posttranslational modification of peptidyl-histidine to 2'-(3-carboxamido-3-(trimethylammon
"The chemical reactions and pathways, including anabolism and catabolism, by which living orga
"The chemical reactions and pathways resulting in the formation of a glycosylphosphatidylinositc
"The chemical reactions and pathways resulting in the formation of a macromolecule, any molec
"The chemical reactions and pathways involving carbohydrates, any of a group of organic comp
The hydrolysis of a peptide bond or bonds within a protein [goid 6508] [evidence IEA]; The hydr
The hydrolysis of a peptide bond or bonds within a protein [goid 6508] [pmid 10387075] [evidenc
The hydrolysis of a peptide bond or bonds within a protein [goid 6508] [evidence IEA]
The hydrolysis of a peptide bond or bonds within a protein [goid 6508] [pmid 11012666] [evidenc
The hydrolysis of a peptide bond or bonds within a protein [goid 6508] [evidence IEA]

"Any process that stops, prevents or reduces the frequency, rate or extent of transcription from a

"The series of molecular signals generated as a consequence of a G-protein coupled receptor b
The synthesis of either RNA on a template of DNA or DNA on a template of RNA [goid 6350] [pr
"The cascade of processes by which a signal interacts with a receptor, causing a change in the
"The attachment of an adhesion molecule in one cell to an identical molecule in an adjacent cell
"The attachment of a cell, either to another cell or to an underlying substrate such as the extrace
"The attachment of a cell, either to another cell or to an underlying substrate such as the extrace
"Process involved in cell fate commitment. Once determination has taken place, a cell becomes
"The process whereby new strands of DNA are synthesized. The template for replication can eit
"The directed movement of substances into, out of or within a vacuole [goid 7034] [evidence IEA
"The attachment of a cell, either to another cell or to an underlying substrate such as the extrace
"The attachment of a cell, either to another cell or to an underlying substrate such as the extrace
"The progression of biochemical and morphological phases and events that occur in a cell durin
"A cellular process resulting in the division of the cytoplasm of a cell and its separation into two d
mRNA."
"The chemical reactions and pathways resulting in the breakdown of D-amino acids, the dextror
"The process whereby new strands of DNA are synthesized. The template for replication can eit
"A process whereby force is generated within striated muscle tissue, resulting in a change in mu

"A process that is carried out at the cellular level which results in the formation, arrangement of

"The synthesis of RNA from a DNA template by RNA polymerase II (Pol II), originating at a Pol I
The series of molecular signals initiated by binding of an extracellular ligand to a Notch receptor
The series of molecular signals initiated by binding of an extracellular ligand to a Notch receptor

The series of molecular signals initiated by binding of an extracellular ligand to a Notch receptor
"The chemical reactions and pathways resulting in the formation of dTDP, deoxyribosylthymine
"A process that is carried out at the cellular level which results in the formation, arrangement of
"The process by which a pre-tRNA molecule is converted to a mature tRNA, ready for addition o
"The process by which a pre-tRNA molecule is converted to a mature tRNA, ready for addition o
"The process by which a pre-tRNA molecule is converted to a mature tRNA, ready for addition o
"The process by which a pre-tRNA molecule is converted to a mature tRNA, ready for addition o
"The process of removing one or more phosphoric residues from a protein [goid 6470] [evidence
"The process of removing one or more phosphoric residues from a protein [goid 6470] [pmid 10
Any process involved in the conversion of one or more primary RNA transcripts into one or more
"The covalent alteration of one or more amino acids occurring in proteins, peptides and nascent
The process of removing one or more phosphoric residues from a protein [goid 6470] [evidence
The process of removing one or more phosphoric residues from a protein [goid 6470] [evidence
Any process that terminates the activity of the active enzyme MAP kinase [goid 188] [pmid 1148
The process of removing one or more phosphoric residues from a protein [goid 6470] [evidence
"Any process that terminates the activity of the active enzyme MAP kinase [goid 188] [evidence
Any process that terminates the activity of the active enzyme MAP kinase [goid 188] [pmid 8107
"Any process that terminates the activity of the active enzyme MAP kinase [goid 188] [pmid 920
The process of removing one or more phosphoric residues from a protein [goid 6470] [evidence
The process of removing one or more phosphoric residues from a protein [goid 6470] [evidence
The process of removing one or more phosphoric residues from a protein [goid 6470] [evidence
The process of removing one or more phosphoric residues from a protein [goid 6470] [evidence
The process of removing one or more phosphoric residues from a protein [goid 6470] [pmid 796
The process of removing one or more phosphoric residues from a protein [goid 6470] [evidence
Any process that terminates the activity of the active enzyme MAP kinase [goid 188] [pmid 7561
"Any process that terminates the activity of the active enzyme MAP kinase [goid 188] [pmid 903
"The chemical reactions and pathways involving dUTP, deoxyuridine (5'-)triphosphate [goid 460
"Any process that modulates the frequency, rate or extent of DNA-dependent transcription [goid

"A series of reactions within the cell that occur as a result of a single trigger reaction or compour
"The last step in the formation of the neural tube, where the paired neural folds are brought toge
"A series of reactions within the cell that occur as a result of a single trigger reaction or compour

"Movement of organelles, other microtubules and other particles along microtubules, mediated b
"The directed movement of a vesicle along a microtubule, mediated by motor proteins [goid 474
"Movement of organelles, other microtubules and other particles along microtubules, mediated b

"Movement of organelles, other microtubules and other particles along microtubules, mediated b
"The biological process whose specific outcome is the progression of a multicellular organism ov
"Any cellular process that depends upon or alters the microtubule cytoskeleton, that part of the

"Any cellular process that depends upon or alters the microtubule cytoskeleton, that part of the c
"Movement of organelles, other microtubules and other particles along microtubules, mediated b

"Any process specifically pertinent to the functioning of integrated living units: cells, tissues, orga
"The process whose specific outcome is the progression of nervous tissue over time, from its for
"The process of introducing a phosphate group on to a protein [goid 6468] [pmid 11980910] [evi
"The process of introducing a phosphate group on to a protein [goid 6468] [pmid 11311121] [evi
The process of introducing a phosphate group on to a protein [goid 6468] [evidence IEA]; The p
The process of introducing a phosphate group on to a protein [goid 6468] [evidence NAS]

"Progression through G1 phase, one of two 'gap' phases in the mitotic cell cycle; G1 is the interv
"Any process that modulates the frequency, rate or extent of DNA-dependent transcription [goid
"The synthesis of either RNA on a template of DNA or DNA on a template of RNA [goid 6350] [e
"Any process that regulates transcription such that the target genes are transcribed during the G
"The synthesis of either RNA on a template of DNA or DNA on a template of RNA [goid 6350] [e
"Any process that regulates transcription such that the target genes are transcribed during the G
"The synthesis of either RNA on a template of DNA or DNA on a template of RNA [goid 6350] [e
"The synthesis of either RNA on a template of DNA or DNA on a template of RNA [goid 6350] [e
"Any process that modulates the frequency, rate or extent of cell growth [goid 1558] [evidence IE
"The synthesis of either RNA on a template of DNA or DNA on a template of RNA [goid 6350] [e
"The synthesis of either RNA on a template of DNA or DNA on a template of RNA [goid 6350] [e

"The process of coupling glutamate to glutamyl-tRNA, catalyzed by glutamyl-tRNA synthetase. I
"Any process that modulates the frequency, rate or extent of cell growth [goid 1558] [pmid 1042
"Any process that modulates the frequency, rate or extent of DNA-dependent transcription [goid
"Any process that modulates the frequency, rate or extent of DNA-dependent transcription [goid
"The synthesis of either RNA on a template of DNA or DNA on a template of RNA [goid 6350] [e
"Any immune system process that functions in the calibrated response of an organism to a pote
"An immune response mediated through a body fluid [goid 6959] [pmid 8551575] [evidence TAS
"The process of the formation of the constituents of the ribosome subunits, their assembly, and
"The process whose specific outcome is the progression of the skeleton over time, from its form
"The chemical reactions and pathways involving sterols, steroids with one or more hydroxyl grou

"Any process that modulates the frequency, rate or extent of glycolysis [goid 6110] [pmid 99289
"The hydrolysis of a peptide bond or bonds within a protein [goid 6508] [evidence IEA]; The hydr
"The hydrolysis of a peptide bond or bonds within a protein [goid 6508] [evidence IEA]; Any proc

"The chemical reactions and pathways resulting in the formation of precursor metabolites, subst
"The chemical reactions and pathways, including anabolism and catabolism, by which living orga
"The chemical reactions and pathways, including anabolism and catabolism, by which living orga
"The chemical reactions and pathways involving lipids, compounds soluble in an organic solvent
"The synthesis of either RNA on a template of DNA or DNA on a template of RNA [goid 6350] [e
"The process that gives rise to the mesoderm. This process pertains to the initial formation of th
"A series of reactions within the cell that occur as a result of a single trigger reaction or compour

"A form of programmed cell death induced by external or internal signals that trigger the activity

"A change in state or activity of a cell or an organism (in terms of movement, secretion, enzyme

"A change in state or activity of a cell or an organism (in terms of movement, secretion, enzyme
"Any process that modulates the frequency, rate or extent of DNA-dependent transcription [goid
RNA."
EDG4), mRNA."
"The process by which the hormones modulates the force of heart muscle contraction. A hormo
"Fusion of the membrane of a transport vesicle with its target membrane [goid 6906] [pmid 9697
"Any process that modulates the frequency, rate or extent of DNA-dependent transcription [goid
The successive addition of amino acid residues to a nascent polypeptide chain during protein bi
NA."
The successive addition of amino acid residues to a nascent polypeptide chain during protein bi
"The successive addition of amino acid residues to a nascent polypeptide chain during protein b
The successive addition of amino acid residues to a nascent polypeptide chain during protein bi
The successive addition of amino acid residues to a nascent polypeptide chain during protein bi
The successive addition of amino acid residues to a nascent polypeptide chain during protein bi
"The incorporation of selenocysteine into a peptide; uses a special tRNA that recognizes the UG
mRNA."

"The sequential process by which the multiple coagulation factors of the blood interact, ultimatel

"The process whose specific outcome is the progression of the neurite over time, from its forma

"The initiation of the activity of the inactive enzyme MAP kinase by phosphorylation by a MAPKK
Any process that mediates the transfer of information from one cell to another [goid 7267] [pmid
Any process that mediates the transfer of information from one cell to another [goid 7267] [pmid
"The characteristic movement of cells from the dorsal ridge of the neural tube to a variety of loca
"The process whose specific outcome is the progression of the lymphatic vasculature over time,
"Any process that mediates the transfer of information from one cell to another [goid 7267] [pmi

The chemical reactions and pathways resulting in the formation of a protein. This is a ribosome-

"The attachment of a cell, either to another cell or to an underlying substrate such as the extrace
"The attachment of a cell, either to another cell or to an underlying substrate such as the extrace
"Any process that activates or increases the frequency, rate or extent of signal transduction mec
"The attachment of a cell, either to another cell or to an underlying substrate such as the extrace
"Any process that modulates the frequency, rate or extent of cell growth [goid 1558] [pmid 8649

"The chemical reactions and pathways, including anabolism and catabolism, by which living orga

"An acute behavioral change resulting from a perceived external threat [goid 1662] [evidence IE
"The characteristic movement of immature neurons from germinal zones to specific positions wh
"The characteristic movement of immature neurons from germinal zones to specific positions wh
"Any process that modulates the frequency, rate or extent of cell migration [goid 30334] [pmid 15
"The process whereby a relatively unspecialized cell acquires the specialized features of an oste
"Any process that activates or increases the frequency, rate or extent of production of a cytokine
"The appearance of a cytokine due to biosynthesis or secretion following a cellular stimulus, res
"Any process that modulates the frequency, rate or extent of DNA-dependent transcription [goid
"The appearance of a cytokine due to biosynthesis or secretion following a cellular stimulus, res
"Any process that modulates the frequency, rate or extent of DNA-dependent transcription [goid
"Any process that modulates the frequency, rate or extent of DNA-dependent transcription [goid
"The synthesis of RNA from a DNA template by RNA polymerase II (Pol II), originating at a Pol I
"Any process that modulates the frequency, rate or extent of DNA-dependent transcription [goid
"The process whereby new strands of DNA are synthesized. The template for replication can eit
"The process whereby new strands of DNA are synthesized. The template for replication can eit
"The synthesis of either RNA on a template of DNA or DNA on a template of RNA [goid 6350] [e
"The process whereby new strands of DNA are synthesized. The template for replication can eit
"Any process that modulates the frequency, rate or extent of DNA-dependent transcription [goid
"Any process that modulates the frequency, rate or extent of DNA-dependent transcription [goid
"The vectorial transfer of a protein from the cytoplasm into the nucleus, through the nuclear pore
"The synthesis of either RNA on a template of DNA or DNA on a template of RNA [goid 6350] [p
"The immediate defensive reaction (by vertebrate tissue) to infection or injury caused by chemic
"The selective interaction of a transcription factor with specific molecules in the cytoplasm, there
"The selective interaction of a transcription factor with specific molecules in the cytoplasm, there
! (NFKBIL2), mRNA."
"The synthesis of either RNA on a template of DNA or DNA on a template of RNA [goid 6350] [e
"The synthesis of RNA from a DNA template by RNA polymerase II (Pol II), originating at a Pol I
"The aggregation, arrangement and bonding together of a set of components to form a protein c
The incorporation of iron and exogenous sulfur into a metallo-sulfur cluster [goid 16226] [pmid 1
"Any process that stops, prevents or reduces the frequency, rate or extent of transcription from a
"Any process that modulates the frequency, rate or extent of DNA-dependent transcription [goid
"The synthesis of either RNA on a template of DNA or DNA on a template of RNA [goid 6350] [e
"The synthesis of either RNA on a template of DNA or DNA on a template of RNA [goid 6350] [e
"The directed movement of substances (such as macromolecules, small molecules, ions) into, o
"Any process involved in the conversion of a primary ribosomal RNA (rRNA) transcript into one c
"A form of programmed cell death induced by external or internal signals that trigger the activity
"The chemical reactions and pathways resulting in the breakdown of glycoproteins, any protein t
"The biological process whose specific outcome is the progression of a multicellular organism ov
"The directed movement of substances (such as macromolecules, small molecules, ions) into, o
"The directed movement of charged atoms or small charged molecules into, out of, within or bet
Any process that maintains the redox environment of a cell or compartment within a cell [goid 45

"The process of the formation of the constituents of the ribosome subunits, their assembly, and

"Any process that activates or increases the frequency, rate or extent of DNA-dependent transcr
"Any process by which a centrosome is transported to, and/or maintained in, a specific location
"The attachment of a cell, either to another cell or to an underlying substrate such as the extrace
"The attachment of a cell, either to another cell or to an underlying substrate such as the extrace

"The aggregation, arrangement and bonding together of the mature ribosome and of its subunits

, mRNA."

"The progression of biochemical and morphological phases and events that occur in a cell durin

"A form of programmed cell death induced by external or internal signals that trigger the activity
"The chemical reactions and pathways involving various organic and inorganic nitrogenous com
"The chemical reactions and pathways involving various organic and inorganic nitrogenous com

"The directed movement of substances (such as macromolecules, small molecules, ions) into, o

"A series of reactions initiated by the activation of the transcription factor NF-kappaB. NF-kappa
"A series of reactions initiated by the activation of the transcription factor NF-kappaB. NF-kappa
The process of assisting in the covalent and noncovalent assembly of single chain polypeptides
"Any process that modulates the frequency, rate or extent of DNA-dependent transcription [goid
"Any process that modulates the frequency, rate or extent of DNA-dependent transcription [goid

"The process of targeting specific proteins to particular membrane-bounded subcellular organell
The biosynthesis of a synapse [goid 7416] [pmid 10892652] [evidence NAS]; The attachment of
"The attachment of a cell, either to another cell or to an underlying substrate such as the extrace
"Any process that modulates the frequency, rate or extent of DNA-dependent transcription [goid
The hydrolysis of a peptide bond or bonds within a protein [goid 6508] [evidence IEA]
"A series of reactions initiated by the activation of the transcription factor NF-kappaB. NF-kappa
"Upregulation of the activity of a caspase, any of a group of cysteine proteases involved in apop

"A process that directly activates any of the steps required for cell death by apoptosis [goid 691

"The process of assisting in the covalent and noncovalent assembly of single chain polypeptides
"A form of programmed cell death induced by external or internal signals that trigger the activity
"A form of programmed cell death induced by external or internal signals that trigger the activity

"Reactions, triggered in response to the presence of a foreign body or the occurrence of an inju

"The cascade of processes by which a signal interacts with a receptor, causing a change in the
"The directed movement of proteins into, out of, within or between cells [goid 15031] [evidence I
"The chemical reactions and pathways resulting in the formation of GTP, guanosine triphosphat
"The chemical reactions and pathways resulting in the formation of GTP, guanosine triphosphat
"The chemical reactions and pathways resulting in the formation of GTP, guanosine triphosphat

"The synthesis of either RNA on a template of DNA or DNA on a template of RNA [goid 6350] [e
"The process whose specific outcome is the progression of the skeleton over time, from its form
"Any process that maintains the redox environment of a cell or compartment within a cell [goid 4
"A change in state or activity of a cell or an organism (in terms of movement, secretion, enzyme
Any process that maintains the redox environment of a cell or compartment within a cell [goid 45
"Any process that maintains the redox environment of a cell or compartment within a cell [goid 4
"A change in state or activity of a cell or an organism (in terms of movement, secretion, enzyme
"The synthesis of either RNA on a template of DNA or DNA on a template of RNA [goid 6350] [e

Any immune system process that functions in the calibrated response of an organism to a poten
"The process whose specific outcome is the progression of the skeleton over time, from its form
The hydrolysis of a peptide bond or bonds within a protein [goid 6508] [evidence IEA]; The hydr
The hydrolysis of a peptide bond or bonds within a protein [goid 6508] [evidence IEA]
"The chemical reactions and pathways involving superoxide, the superoxide anion O2- (superox
"A form of programmed cell death induced by external or internal signals that trigger the activity
Any immune system process that functions in the calibrated response of an organism to a poten
"The multiplication or reproduction of cells, resulting in the expansion of a cell population [goid 8
"The synthesis of either RNA on a template of DNA or DNA on a template of RNA [goid 6350] [e

"Any cellular process that results in the specification, formation or maintenance of the apicobasa

"The process whereby new strands of DNA are synthesized. The template for replication can eit
"The process whereby new strands of DNA are synthesized. The template for replication can eit

"The chemical reactions and pathways involving glucose, the aldohexose gluco-hexose. D-glucc
"The chemical reactions and pathways involving carbohydrates, any of a group of organic comp
"The chemical reactions and pathways resulting in the formation of a fatty acid, any of the alipha
"The process of introducing a phosphate group on to a protein [goid 6468] [evidence IEA]; The p
"The process of introducing a phosphate group on to a protein [goid 6468] [pmid 2342480] [evid
"The chemical reactions and pathways involving glycogen, a polydisperse, highly branched gluc
"The process that gives rise to the mesoderm. This process pertains to the initial formation of th
"Any process that modulates the frequency, rate or extent of addition of phosphate groups into a
"Any process that modulates the frequency, rate or extent of addition of phosphate groups into a
"A series of reactions within the cell that occur as a result of a single trigger reaction or compour

The process of introducing a phosphate group on to a protein [goid 6468] [pmid 3755548] [evide
"The process of introducing a phosphate group on to a protein [goid 6468] [pmid 16611985] [evi
"The process of introducing a phosphate group on to a protein [goid 6468] [evidence IEA]; Any p
The process of introducing a phosphate group on to a protein [goid 6468] [pmid 1986216] [evide
"The process of introducing a phosphate group on to a protein [goid 6468] [pmid 8226978] [evid
"The process of introducing a phosphate group on to a protein [goid 6468] [evidence IEA]; A ser
"A series of reactions, mediated by protein kinases, which occurs as a result of a single trigger r
"A process that is carried out at the cellular level which results in the formation, arrangement of
"The process of introducing a phosphate group on to a protein [goid 6468] [evidence IEA]; A ser
The process of introducing a phosphate group on to a protein [goid 6468] [evidence NAS]; The p
The process of introducing a phosphate group on to a protein [goid 6468] [pmid 10231560] [evic
"Any process that contributes to the maintenance of proper telomeric length and structure by aff
"The process of introducing a phosphate group on to a protein [goid 6468] [evidence IEA]; A pro
"A change in state or activity of a cell or an organism (in terms of movement, secretion, enzyme
The process of introducing a phosphate group on to a protein [goid 6468] [pmid 7633447] [evide
The process of introducing a phosphate group on to a protein [goid 6468] [pmid 9154127] [evide
"Any series of molecular signals initiated by the binding of an extracellular ligand to a receptor o

"Any process by which DNA and associated proteins are formed into a compact, orderly structur
The addition of a methyl group to a protein amino acid. A methyl group is derived from methane

"The addition of a methyl group to a protein amino acid. A methyl group is derived from methane
"The chemical reactions and pathways, including anabolism and catabolism, by which living orga
"The formation and assembly from one or more snRNA and multiple protein components of a rib
Any process by which an organism has an effect on an organism of a different species [goid 44
"The modification of histones by addition of methyl groups [goid 16571] [pmid 15494416] [evider
"The modification of histones by addition of methyl groups [goid 16571] [pmid 16051612] [evider
"A change in state or activity of a cell or an organism (in terms of movement, secretion, enzyme
RNA."
"The hydrolysis of a peptide bond or bonds within a protein [goid 6508] [pmid 12052963] [evider

"Any immune system process that functions in the calibrated response of an organism to a pote
"The initiation of the activity of the inactive enzyme MAP kinase by phosphorylation by a MAPKK
"The initiation of the activity of the inactive enzyme MAP kinase by phosphorylation by a MAPKK
"Any process specifically pertinent to the functioning of integrated living units: cells, tissues, orga
"The series of events required for an organism to receive a visual stimulus, convert it to a molec
"The sequential process by which the multiple coagulation factors of the blood interact, ultimatel

"Any process that modulates the frequency, rate or extent of DNA-dependent transcription [goid
Any process involved in the conversion of a primary mRNA transcript into one or more mature m
"Addition of multiple ubiquitin moieties to a protein, forming a ubiquitin chain [goid 209] [pmid 11
"The joining together of exons from one or more primary transcripts of nuclear messenger RNA
"The formation of a tri-snRNP complex containing U4 and U6 (or U4atac and U6atac) snRNAs a
Any process involved in the conversion of a primary mRNA transcript into one or more mature m
Any process involved in the conversion of a primary mRNA transcript into one or more mature m
"The joining together of exons from one or more primary transcripts of nuclear messenger RNA
Any process involved in the conversion of a primary mRNA transcript into one or more mature m
"The aggregation, arrangement and bonding together of the spliceosome, a ribonucleoprotein ap
"The joining together of exons from one or more primary transcripts of nuclear messenger RNA
"A process that is carried out at the cellular level which results in the formation, arrangement of
"The chemical reactions and pathways involving a nucleoside, a nucleobase linked to either beta
"The chemical reactions and pathways involving a nucleoside, a nucleobase linked to either beta
"The chemical reactions and pathways involving nucleobases, nucleosides, nucleotides and nuc
"The chemical reactions and pathways involving nucleobases, nucleosides, nucleotides and nuc

"The series of events required for an organism to receive a visual stimulus, convert it to a molec

"Any process specifically pertinent to the functioning of integrated living units: cells, tissues, orga

"A change in state or activity of a cell or an organism (in terms of movement, secretion, enzyme

"Any process that modulates the frequency, rate or extent of DNA-dependent transcription [goid
The hydrolysis of a peptide bond or bonds within a protein [goid 6508] [evidence IEA]
The hydrolysis of a peptide bond or bonds within a protein [goid 6508] [evidence IEA]
The hydrolysis of a peptide bond or bonds within a protein [goid 6508] [evidence IEA]
The hydrolysis of a peptide bond or bonds within a protein [goid 6508] [evidence IEA]

"The chemical reactions and pathways involving lipids, compounds soluble in an organic solvent
"The chemical reactions and pathways involving lipids, compounds soluble in an organic solvent

"The directed movement of substances, either within a vesicle or in the vesicle membrane, into,
"A type of vesicle-mediated transport in which cells take up external materials or membrane con
"Any process that modulates the frequency, rate or extent of ARF protein signal transduction [gc
"Any process that modulates the frequency, rate or extent of attachment of a cell to another cell
"Any process that modulates the frequency, rate or extent of ARF protein signal transduction [gc
"Any process that modulates the frequency, rate or extent of ARF protein signal transduction [gc
"Any process that modulates the frequency, rate or extent of ARF protein signal transduction [gc
"A series of reactions within the cell that occur as a result of a single trigger reaction or compour
"The proteolytic cleavage of transmembrane proteins and release of their ectodomain (extracellu
"The set of physiological processes that allow an embryo or foetus to develop within the body of
"Reactions, triggered in response to the presence of a foreign body or the occurrence of an injur
"The synthesis of either RNA on a template of DNA or DNA on a template of RNA [goid 6350] [e

The process of introducing a phosphate group on to a protein [goid 6468] [evidence NAS]
"The chemical reactions and pathways resulting in the breakdown of a protein or peptide by hyd
"The chemical reactions and pathways resulting in the breakdown of a protein or peptide by hyd
"The chemical reactions and pathways resulting in the breakdown of a protein or peptide by hyd
"The chemical reactions and pathways resulting in the breakdown of a protein or peptide by hyd
"The chemical reactions and pathways resulting in the breakdown of a protein or peptide by hyd

The process of removal or addition of one or more electrons with or without the concomitant rem
The set of physiological processes that allow an embryo or foetus to develop within the body of
"The process of coupling glutamate to glutamyl-tRNA, catalyzed by glutamyl-tRNA synthetase. I
"The chemical reactions and pathways, including anabolism and catabolism, by which living orga
"Any process involved in the conversion of a primary mRNA transcript into one or more mature r
"The covalent alteration of one or more amino acids occurring in proteins, peptides and nascent
The hydrolysis of a peptide bond or bonds within a protein [goid 6508] [evidence IEA]
"The chemical reactions and pathways, including anabolism and catabolism, by which living orga

The chemical reactions and pathways resulting in the formation of a protein. This is a ribosome-
Any process that maintains the redox environment of a cell or compartment within a cell [goid 45
Any process that maintains the redox environment of a cell or compartment within a cell [goid 45
"The chemical reactions and pathways resulting in the formation of queuosines, any of a series
"The chemical reactions and pathways resulting in the formation of queuosines, any of a series

"Any process that modulates the frequency, rate or extent of DNA-dependent transcription [goid
"Any process that modulates the frequency, rate or extent of DNA-dependent transcription [goid
"Any process that modulates the frequency, rate or extent of DNA-dependent transcription [goid
"The directed movement of proteins into, out of, within or between cells [goid 15031] [evidence I
"The directed movement of proteins into, out of, within or between cells [goid 15031] [evidence I

"The chemical reactions and pathways, including anabolism and catabolism, by which living orga
"Any series of molecular signals in which a small monomeric GTPase relays one or more of the
"Any process that modulates the frequency, rate or extent of DNA-dependent transcription [goid
"Any series of molecular signals in which a small monomeric GTPase relays one or more of the
"Any series of molecular signals in which a small monomeric GTPase relays one or more of the
"Any series of molecular signals in which a small monomeric GTPase relays one or more of the
"Any process that modulates the frequency, rate or extent of DNA-dependent transcription [goid

"Any series of molecular signals in which a small monomeric GTPase relays one or more of the

"Any series of molecular signals in which a small monomeric GTPase relays one or more of the
"A type of vesicle-mediated transport in which cells take up external materials or membrane con
"The cascade of processes by which a signal interacts with a receptor, causing a change in the
"The process by which cells digest parts of their own cytoplasm; allows for both recycling of mac
"Any process that modulates the frequency, rate or extent of DNA-dependent transcription [goid
"Any process that modulates the frequency, rate or extent of DNA-dependent transcription [goid
Any series of molecular signals in which a small monomeric GTPase relays one or more of the s
"Any process that modulates the frequency, rate or extent of DNA-dependent transcription [goid
"Any series of molecular signals in which a small monomeric GTPase relays one or more of the
"Any series of molecular signals in which a small monomeric GTPase relays one or more of the
"Any series of molecular signals in which a small monomeric GTPase relays one or more of the
"Any series of molecular signals in which a small monomeric GTPase relays one or more of the
"Any series of molecular signals in which a small monomeric GTPase relays one or more of the
"Any process that modulates the frequency, rate or extent of DNA-dependent transcription [goid
"Any series of molecular signals in which a small monomeric GTPase relays one or more of the
"Any series of molecular signals in which a small monomeric GTPase relays one or more of the
"A organ system process carried out by any of the organs or tissues of the respiratory system. T
"Any series of molecular signals in which a small monomeric GTPase relays one or more of the
"Any series of molecular signals in which a small monomeric GTPase relays one or more of the
"Any series of molecular signals in which a small monomeric GTPase relays one or more of the
"The directed movement of proteins in a cell, including the movement of proteins between speci
"The directed movement of substances from the Golgi to the plasma membrane in transport ves
"The chemical reactions and pathways resulting in the breakdown of a protein or peptide by hyd
"The chemical reactions and pathways resulting in the breakdown of a protein or peptide by hyd
Any series of molecular signals in which a small monomeric GTPase relays one or more of the s
"The directed movement of proteins in a cell, including the movement of proteins between speci
"Any series of molecular signals in which a small monomeric GTPase relays one or more of the
"Any series of molecular signals in which a small monomeric GTPase relays one or more of the
"A type of vesicle-mediated transport in which cells take up external materials or membrane con
"A process that is carried out at the cellular level which results in the formation, arrangement of

"Any series of molecular signals in which a small monomeric GTPase relays one or more of the
"The directed movement of substances from the Golgi back to the endoplasmic reticulum, media
"Any process that modulates the frequency, rate or extent of DNA-dependent transcription [goid
"Any series of molecular signals in which a small monomeric GTPase relays one or more of the
"Any series of molecular signals in which a small monomeric GTPase relays one or more of the
"Any process that modulates the frequency, rate or extent of DNA-dependent transcription [goid
"Any series of molecular signals in which a small monomeric GTPase relays one or more of the

"A type of vesicle-mediated transport in which cells take up external materials or membrane con
"A type of vesicle-mediated transport in which cells take up external materials or membrane con
"The uptake of external materials by cells, utilizing receptors to ensure specificity of transport. A
"The progression of biochemical and morphological phases and events that occur in a cell durin
Any process that modulates the activity of a GTPase of the Rab family [goid 32313] [evidence IE

"The chemical reactions and pathways resulting in the breakdown of a protein or peptide by hyd
"The covalent alteration of one or more amino acids occurring in proteins, peptides and nascent
"The covalent alteration of one or more amino acids occurring in proteins, peptides and nascent
Any series of molecular signals in which a small monomeric GTPase relays one or more of the s
Any series of molecular signals in which a small monomeric GTPase relays one or more of the s
"Any process that modulates the frequency, rate or extent of DNA-dependent transcription [goid
Any series of molecular signals in which a small monomeric GTPase relays one or more of the s

"Any series of molecular signals in which a small monomeric GTPase relays one or more of the
"The directed movement of a motile cell or organism, or the directed growth of a cell guided by a
"Any series of molecular signals in which a small monomeric GTPase relays one or more of the
"A cellular process resulting in the division of the cytoplasm of a cell and its separation into two c
"A point in the eukaryotic cell cycle where progress through the cycle can be halted until conditio
"A signal transduction based surveillance mechanism that prevents the initiation of mitosis until
"The process of restoring DNA after damage. Genomes are subject to damage by chemical and
"The repair of double-strand breaks in DNA via homologous and nonhomologous mechanisms t
"In nucleotide excision repair a small region of the strand surrounding the damage is removed fr
"The covalent alteration of one or more amino acids occurring in proteins, peptides and nascent
"The chemical reactions and pathways involving DNA, deoxyribonucleic acid, one of the two ma
"The error-free repair of a double-strand break in DNA in which the broken DNA molecule is rep

"The process of restoring DNA after damage. Genomes are subject to damage by chemical and
"In base excision repair, an altered base is removed by a DNA glycosylase enzyme, followed by
"The error-free repair of a double-strand break in DNA in which the broken DNA molecule is rep
"The error-free repair of a double-strand break in DNA in which the broken DNA molecule is rep

"A point in the eukaryotic cell cycle where progress through the cycle can be halted until conditio

The directed movement of mRNA from the nucleus to the cytoplasm [goid 6406] [pmid 1020902
Any immune system process that functions in the calibrated response of an organism to a poten
Any immune system process that functions in the calibrated response of an organism to a poten
"The process of introducing a phosphate group on to a protein [goid 6468] [pmid 8063729] [evid
"Any process by which a new genotype is formed by reassortment of genes resulting in gene co
"Any process by which a new genotype is formed by reassortment of genes resulting in gene co
"The process of introducing a phosphate group on to a protein [goid 6468] [pmid 10421840] [evi
"The process whose specific outcome is the progression of the skeleton over time, from its form
"The process whose specific outcome is the progression of an embryo from its formation until th

"The chemical reactions and pathways involving DNA, deoxyribonucleic acid, one of the two ma
"The directed movement of substances within a cell [goid 46907] [evidence IEA]; A process that

"The process of assisting in the covalent and noncovalent assembly of single chain polypeptides
"The directed movement of proteins into, out of, within or between cells [goid 15031] [evidence I
The directed movement of substances within a cell [goid 46907] [evidence IEA]
"The directed movement of proteins into, out of, within or between cells [goid 15031] [evidence I
"The cascade of processes by which a signal interacts with a receptor, causing a change in the
"The directed movement of proteins into, out of, within or between cells [goid 15031] [evidence I
Any series of molecular signals in which a small monomeric GTPase relays one or more of the s

"The cascade of processes by which a signal interacts with a receptor, causing a change in the
"The cascade of processes by which a signal interacts with a receptor, causing a change in the
Any series of molecular signals in which a small monomeric GTPase relays one or more of the s
"Any series of molecular signals in which a small monomeric GTPase relays one or more of the
"Cascade of at least three protein kinase activities culminating in the phosphorylation and activa
"The process whose specific outcome is the progression of nervous tissue over time, from its for
"The cascade of processes by which a signal interacts with a receptor, causing a change in the
"The cascade of processes by which a signal interacts with a receptor, causing a change in the
"The synthesis of either RNA on a template of DNA or DNA on a template of RNA [goid 6350] [e
"Any process that stops, prevents or reduces the rate or extent of cell proliferation [goid 8285] [p
"The process of coupling arginine to arginyl-tRNA, catalyzed by arginyl-tRNA synthetase. In tRN
"The process of coupling arginine to arginyl-tRNA, catalyzed by arginyl-tRNA synthetase. In tRN
"A cellular process resulting in the division of the cytoplasm of a cell and its separation into two c
"A series of reactions within the cell that occur as a result of a single trigger reaction or compour
"A series of reactions within the cell that occur as a result of a single trigger reaction or compour
"A series of reactions within the cell that occur as a result of a single trigger reaction or compour

"The cascade of processes by which a signal interacts with a receptor, causing a change in the
Any series of molecular signals in which a small monomeric GTPase relays one or more of the s
"Any process that modulates the frequency, rate or extent of small GTPase mediated signal trar
"A series of molecular signals within the cell that are mediated by a member of the Ras superfar
"Any process that modulates the frequency, rate or extent of cell growth [goid 1558] [pmid 10918
"Cascade of at least three protein kinase activities culminating in the phosphorylation and activa
"The cascade of processes by which a signal interacts with a receptor, causing a change in the I
Any series of molecular signals in which a small monomeric GTPase relays one or more of the s
Any series of molecular signals in which a small monomeric GTPase relays one or more of the s
Any series of molecular signals in which a small monomeric GTPase relays one or more of the s
Any series of molecular signals in which a small monomeric GTPase relays one or more of the s
"The process by which the cell cycle is halted during one of the normal phases (G1, S, G2, M) [g

"The cascade of processes by which a signal interacts with a receptor, causing a change in the
"The cascade of processes by which a signal interacts with a receptor, causing a change in the
"The cascade of processes by which a signal interacts with a receptor, causing a change in the
"A form of programmed cell death induced by external or internal signals that trigger the activity
"The cascade of processes by which a signal interacts with a receptor, causing a change in the
"Any process that modulates the frequency, rate or extent of DNA-dependent transcription [goid

"Any process that modulates the frequency, rate or extent of DNA-dependent transcription [goid

"A point in the eukaryotic cell cycle where progress through the cycle can be halted until conditio
"The process whose specific outcome is the progression of the liver over time, from its formation
"The synthesis of either RNA on a template of DNA or DNA on a template of RNA [goid 6350] [e
"The process whereby new strands of DNA are synthesized. The template for replication can eit

The process by which one or more ubiquitin moieties are added to a protein [goid 16567] [evide
"The process whereby new strands of DNA are synthesized. The template for replication can eit
"A point in the eukaryotic cell cycle where progress through the cycle can be halted until conditio

"The covalent alteration of one or more amino acids occurring in proteins, peptides and nascent

"A type of vesicle-mediated transport in which cells take up external materials or membrane con
"The synthesis of RNA from a DNA template by RNA polymerase II (Pol II), originating at a Pol I
"The covalent alteration of one or more amino acids occurring in proteins, peptides and nascent
"The synthesis of RNA from a DNA template by RNA polymerase II (Pol II), originating at a Pol I
"Any process that modulates the frequency, rate or extent of DNA-dependent transcription [goid
"The release of NF-kappaB from specific molecules in the cytoplasm to which it was bound, ther
"The process by which a pre-tRNA molecule is converted to a mature tRNA, ready for addition o

"The process by which a pre-tRNA molecule is converted to a mature tRNA, ready for addition o
"The process by which a pre-tRNA molecule is converted to a mature tRNA, ready for addition o

"The process by which a pre-tRNA molecule is converted to a mature tRNA, ready for addition o
ɔt variant 1, mRNA."

"The process by which a pre-tRNA molecule is converted to a mature tRNA, ready for addition o
"Any process that modulates the frequency, rate or extent of translational initiation [goid 6446] [e

"The process by which a pre-tRNA molecule is converted to a mature tRNA, ready for addition o

"Any process involved in the conversion of one or more primary RNA transcripts into one or mor
"Any process that stops, prevents or reduces the frequency, rate or extent of cell growth [goid 3(

"The attachment of a cell, either to another cell or to an underlying substrate such as the extrace
"The chemical reactions and pathways resulting in the breakdown of a monosaccharide (genera
"The directed movement of charged atoms or small charged molecules into, out of, within or bet
"The directed movement of charged atoms or small charged molecules into, out of, within or bet
"The directed movement of charged atoms or small charged molecules into, out of, within or bet
"The aggregation, arrangement and bonding together of a set of components to form a protein c
"The chemical reactions and pathways resulting in the formation of a protein. This is a ribosome
"The directed movement of charged atoms or small charged molecules into, out of, within or bet
"The directed movement of charged atoms or small charged molecules into, out of, within or bet
"The process whose specific outcome is the progression of the skeleton over time, from its form
"The directed movement of charged atoms or small charged molecules into, out of, within or bet
"The directed movement of charged atoms or small charged molecules into, out of, within or bet
"Any process that modulates the frequency, rate or extent of DNA-dependent transcription [goid
"The process by which a pre-tRNA molecule is converted to a mature tRNA, ready for addition o
"The intramolecular conversion of uridine to pseudouridine within an RNA molecule. This posttra
"The process whose specific outcome is the progression of the kidney over time, from its format
"The last step in the formation of the neural tube, where the paired neural folds are brought toge
"The synthesis of either RNA on a template of DNA or DNA on a template of RNA [goid 6350] [e
"Any process that modulates the frequency, rate or extent of DNA-dependent transcription [goid
"Any process that modulates the frequency, rate or extent of DNA-dependent transcription [goid
"The synthesis of either RNA on a template of DNA or DNA on a template of RNA [goid 6350] [e
"Any process involved in the conversion of a primary mRNA transcript into one or more mature r
"Splicing of tRNA substrates via recognition of the folded RNA structure that brings the 5' and 3'
"Splicing of tRNA substrates via recognition of the folded RNA structure that brings the 5' and 3'
"Any process involved in the conversion of a primary mRNA transcript into one or more mature r
The successive addition of amino acid residues to a nascent polypeptide chain during protein bi
"Any process that modulates the frequency, rate or extent of cell growth [goid 1558] [evidence IE
"The process of formation of spermatozoa, including spermatocytogenesis and spermiogenesis

"The series of molecular signals generated as a consequence of a G-protein coupled receptor b
"The synthesis of either RNA on a template of DNA or DNA on a template of RNA [goid 6350] [e
"The synthesis of either RNA on a template of DNA or DNA on a template of RNA [goid 6350] [e

"Any process by which a new genotype is formed by reassortment of genes resulting in gene co
"The biological process whose specific outcome is the progression of a multicellular organism ov
"The biological process whose specific outcome is the progression of a multicellular organism ov

The hydrolysis of a peptide bond or bonds within a protein [goid 6508] [evidence IEA]

The process by which one or more ubiquitin moieties are added to a protein [goid 16567] [pmid

Any process that activates or increases the rate or extent of cell proliferation [goid 8284] [pmid 8
Any process that mediates the transfer of information from one cell to another [goid 7267] [pmid

The posttranslational glycosylation of protein via the N4 atom of peptidyl-asparagine or the N1' a
"The addition of a sugar unit to a protein amino acid, e.g. the addition of glycan chains to proteir

"The process of directing proteins towards and into the mitochondrion, mediated by mitochondri
"The aggregation, arrangement and bonding together of a nucleosome, the beadlike structural u
"The aggregation, arrangement and bonding together of a nucleosome, the beadlike structural u
"The aggregation, arrangement and bonding together of a nucleosome, the beadlike structural u
"The aggregation, arrangement and bonding together of a nucleosome, the beadlike structural u
"The aggregation, arrangement and bonding together of the mature ribosome and of its subunits
Any process involved in the conversion of a primary ribosomal RNA (rRNA) transcript into one o

"The process of introducing a phosphate group on to a protein [goid 6468] [pmid 15964553] [evi
"The process of introducing a phosphate group on to a protein [goid 6468] [pmid 15870294] [evi
"The directed movement of sulfate into, out of, within or between cells [goid 8272] [evidence IEA
"The attachment of a leukocyte to another cell via adhesion molecules [goid 7159] [pmid 11698
ıscript variant 3, mRNA."
The process of assisting in the covalent and noncovalent assembly of single chain polypeptides

"Any process specifically pertinent to the functioning of integrated living units: cells, tissues, orga

"A process that is carried out at the cellular level which results in the formation, arrangement of
"A process that is carried out at the cellular level which results in the formation, arrangement of

"The process of restoring DNA after damage. Genomes are subject to damage by chemical and
"The regulation of the levels, transport, and metabolism of iron ions within a cell or between a ce
"The series of events required for an organism to receive a visual stimulus, convert it to a molec
The process of assisting in the covalent and noncovalent assembly of single chain polypeptides
The process of assisting in the covalent and noncovalent assembly of single chain polypeptides
"Dynamic structural changes to eukaryotic chromatin occurring throughout the cell division cycle
"The synthesis of either RNA on a template of DNA or DNA on a template of RNA [goid 6350] [e
"The process of introducing a phosphate group on to a protein [goid 6468] [evidence IEA]; A pro
"The covalent alteration of one or more amino acids occurring in proteins, peptides and nascent
"The covalent alteration of one or more amino acids occurring in proteins, peptides and nascent
"The covalent alteration of one or more amino acids occurring in proteins, peptides and nascent
"The covalent alteration of one or more amino acids occurring in proteins, peptides and nascent
"The covalent alteration of one or more amino acids occurring in proteins, peptides and nascent
"The covalent alteration of one or more amino acids occurring in proteins, peptides and nascent
"The covalent alteration of one or more amino acids occurring in proteins, peptides and nascent
"The covalent alteration of one or more amino acids occurring in proteins, peptides and nascent
"The covalent alteration of one or more amino acids occurring in proteins, peptides and nascent
"The covalent alteration of one or more amino acids occurring in proteins, peptides and nascent
"The directed movement of substances (such as macromolecules, small molecules, ions) into, c
RNA."
RNA."
NA."
g RNA."
g RNA."
"The directed movement of charged atoms or small charged molecules into, out of, within or bet
"The directed movement of charged atoms or small charged molecules into, out of, within or bet
"Movement of organelles, other microtubules and other particles along microtubules, mediated b
"Movement of organelles, other microtubules and other particles along microtubules, mediated b
"Movement of organelles, other microtubules and other particles along microtubules, mediated b

"Movement of organelles, other microtubules and other particles along microtubules, mediated b
"Movement of organelles, other microtubules and other particles along microtubules, mediated b
"Movement of organelles, other microtubules and other particles along microtubules, mediated b
"Movement of organelles, other microtubules and other particles along microtubules, mediated b
"Movement of organelles, other microtubules and other particles along microtubules, mediated b
"Movement of organelles, other microtubules and other particles along microtubules, mediated b
"Any process involved in the controlled movement of a cell [goid 6928] [pmid 16130169] [eviden

"Movement of organelles, other microtubules and other particles along microtubules, mediated b
"Movement of organelles, other microtubules and other particles along microtubules, mediated b
"Movement of organelles, other microtubules and other particles along microtubules, mediated b
"Movement of organelles, other microtubules and other particles along microtubules, mediated b
"Movement of organelles, other microtubules and other particles along microtubules, mediated b
"Movement of organelles, other microtubules and other particles along microtubules, mediated b
"A process that is carried out at the cellular level which results in the formation, arrangement of
"Any cellular process that depends upon or alters the microtubule cytoskeleton, that part of the c
"The aggregation, arrangement and bonding together of a set of components to form a protein c
"The aggregation, arrangement and bonding together of a set of components to form a protein c
"The 'de novo' formation of a microtubule, in which tubulin heterodimers form metastable oligom
"The 'de novo' formation of a microtubule, in which tubulin heterodimers form metastable oligom
"The deposition of calcium phosphate in bone tissue [goid 30282] [pmid 12489194] [evidence N

"Any process that modulates the frequency, rate or extent of DNA-dependent transcription [goid
"Any process that modulates the frequency, rate or extent of DNA-dependent transcription [goid
"Any process that mediates the transfer of information from one cell to another [goid 7267] [pmi
"Any process that stops, prevents or reduces the rate or extent of progression through the cell c

The process of introducing a phosphate group on to a protein [goid 6468] [pmid 7507208] [evide

"Any process that modulates the frequency, rate or extent of the synthesis of either RNA on a te
The synthesis of either RNA on a template of DNA or DNA on a template of RNA [goid 6350] [ev
"The formation of bone or of a bony substance, or the conversion of fibrous tissue or of cartilage
"A process of secretion by a cell that results in the release of intracellular molecules (e.g. hormo

"Any process that maintains the redox environment of a cell or compartment within a cell [goid 4
"The chemical reactions and pathways involving glycerol ethers, any anhydride formed between
Any process that maintains the redox environment of a cell or compartment within a cell [goid 45
Any process that maintains the redox environment of a cell or compartment within a cell [goid 45
Any process that maintains the redox environment of a cell or compartment within a cell [goid 45
Any process that maintains the redox environment of a cell or compartment within a cell [goid 45
Any process that maintains the redox environment of a cell or compartment within a cell [goid 45
A series of molecular signals generated as a consequence of tumor necrosis factor binding to a
"Oxidation of two organic sulfhydryl groups (thiols) by a disulfide compound to form a disulfide b
A process which directly inhibits any of the steps required for cell death by apoptosis [goid 6916
"Any process specifically pertinent to the functioning of integrated living units: cells, tissues, orga
"The synthesis of either RNA on a template of DNA or DNA on a template of RNA [goid 6350] [e

"Any process involved in the conversion of a primary mRNA transcript into one or more mature r
"The directed movement of substances (such as macromolecules, small molecules, ions) into, o
"A change in state or activity of a cell or an organism (in terms of movement, secretion, enzyme
The process of introducing a phosphate group on to a protein [goid 6468] [pmid 2216457] [evide
"The maintenance of the structure and integrity of the mitochondrial genome; includes replicatio

"The chemical reactions and pathways involving nucleobases, nucleosides, nucleotides and nuc
"The process of introducing a phosphate group on to a protein [goid 6468] [evidence IEA]; The a
A defense response that is mediated by cells [goid 6968] [pmid 9490415] [evidence TAS]; A ser
The hydrolysis of a peptide bond or bonds within a protein [goid 6508] [evidence IEA]
"The process by which a pre-tRNA molecule is converted to a mature tRNA, ready for addition o
"The process by which a pre-tRNA molecule is converted to a mature tRNA, ready for addition o
"The process by which a pre-tRNA molecule is converted to a mature tRNA, ready for addition o
Any process involved in the conversion of a primary mRNA transcript into one or more mature m
"The joining together of exons from one or more primary transcripts of nuclear messenger RNA

Any process involved in the conversion of a primary mRNA transcript into one or more mature m
"Any process involved in the conversion of a primary mRNA transcript into one or more mature r
"The chemical reactions and pathways, including anabolism and catabolism, by which living orga
"The chemical reactions and pathways, including anabolism and catabolism, by which living orga
"The covalent alteration of one or more amino acids occurring in proteins, peptides and nascent
"The covalent alteration of one or more amino acids occurring in proteins, peptides and nascent
"Progression through the phases of the mitotic cell cycle, the most common eukaryotic cell cycle
"The chemical reactions and pathways resulting in the breakdown of a protein or peptide by hyd
"The successive addition of amino acid residues to a nascent polypeptide chain during protein b
"The covalent alteration of one or more amino acids occurring in proteins, peptides and nascent
"The covalent alteration of one or more amino acids occurring in proteins, peptides and nascent
"The chemical reactions and pathways resulting in the breakdown of a protein or peptide by hyd

"The covalent alteration of one or more amino acids occurring in proteins, peptides and nascent
"The covalent alteration of one or more amino acids occurring in proteins, peptides and nascent
"The covalent alteration of one or more amino acids occurring in proteins, peptides and nascent

riant 3, mRNA."
ant 1, mRNA."

"Elemental activities, such as catalysis or binding, describing the actions of a gene product at th

Interacting selectively with any protein or protein complex (a complex of two or more proteins tha

Interacting selectively with DNA (deoxyribonucleic acid) [goid 3677] [evidence IEA]

Catalysis of the geometric or structural changes within one molecule. Isomerase is the systemat

Involved in catalyzing the release of a nascent polypeptide chain from a ribosome [goid 3747] [e

Interacting selectively with any protein or protein complex (a complex of two or more proteins tha

Interacting selectively with DNA (deoxyribonucleic acid) [goid 3677] [evidence IEA]

Catalysis of the hydrolysis of any ester bond [goid 16788] [evidence IEA]

Interacting selectively with any protein or protein complex (a complex of two or more proteins tha

Interacting selectively with calcium ions (Ca2+) [goid 5509] [evidence IEA]

Catalysis of the geometric or structural changes within one molecule. Isomerase is the systemat
cell death by apoptosis [goid 8629] [evidence IEA]

Interacting selectively with an identical protein or proteins [goid 42802] [pmid 15147888] [eviden

"Interacting selectively with an RNA molecule or a portion thereof [goid 3723] [evidence IEA]; Th

Interacting selectively with DNA (deoxyribonucleic acid) [goid 3677] [evidence IEA]; Interacting s

The action of a molecule that contributes to the structural integrity of the ribosome [goid 3735] [e

"Interacting selectively with purine nucleotides, any compound consisting of a purine nucleoside

Catalysis of facilitated diffusion of an ion (by an energy-independent process) by passage throu

"The selective, often stoichiometric, interaction of a molecule with one or more specific sites on

Interacting selectively with any protein or protein complex (a complex of two or more proteins tha

ɱRNA(s) prior to translation into polypeptide [goid 6397] [evidence IEA]; The covalent alteration

"Elemental activities, such as catalysis or binding, describing the actions of a gene product at th

"Elemental activities, such as catalysis or binding, describing the actions of a gene product at th

"Enables the directed movement of substances (such as macromolecules, small molecules, ions
Interacting selectively with any protein or protein complex (a complex of two or more proteins tha

Interacting selectively with DNA (deoxyribonucleic acid) [goid 3677] [evidence IEA]

er time from an initial condition (e.g. a zygote or a young adult) to a later condition (e.g. a multice

Interacting selectively with selenium (Se) [goid 8430] [evidence IEA]

Interacting selectively with any nucleic acid [goid 3676] [evidence IEA]

"Catalysis of the hydrolysis of various bonds, e.g. C-O, C-N, C-C, phosphoric anhydride bonds,
Interacting selectively with DNA (deoxyribonucleic acid) [goid 3677] [evidence IEA]

Interacting selectively with any protein or protein complex (a complex of two or more proteins tha
Interacting selectively with any protein or protein complex (a complex of two or more proteins tha

"Elemental activities, such as catalysis or binding, describing the actions of a gene product at th

"Elemental activities, such as catalysis or binding, describing the actions of a gene product at th

r more mature rRNA molecules [goid 6364] [evidence IEA]

Mediates the transfer of a signal from the outside to the inside of a cell by means other than the

EA]; The directed movement of proteins in a cell, from one side of a membrane to another [goid

Interacting selectively with any protein or protein complex (a complex of two or more proteins tha

Interacting selectively with an unfolded protein [goid 51082] [evidence IEA]
ver time from an initial condition (e.g. a zygote or a young adult) to a later condition (e.g. a multic
Interacting selectively with any nucleic acid [goid 3676] [evidence IEA]

Interacting selectively with any protein or protein complex (a complex of two or more proteins tha

ut of, within or between cells, or within a multicellular organism [goid 6810] [evidence IEA]"
Interacting selectively with any protein or protein complex (a complex of two or more proteins tha

Interacting selectively with any protein or protein complex (a complex of two or more proteins tha

Interacting selectively with any protein or protein complex (a complex of two or more proteins tha

Interacting selectively with magnesium (Mg) ions [goid 287] [evidence IEA]; Catalysis of the add

Interacting selectively with any protein or protein complex (a complex of two or more proteins tha

"Elemental activities, such as catalysis or binding, describing the actions of a gene product at th
Interacting selectively with DNA (deoxyribonucleic acid) [goid 3677] [evidence IEA]; Interacting s

"The selective, often stoichiometric, interaction of a molecule with one or more specific sites on

"Interacting selectively with any mono-, di- or trisaccharide carbohydrate [goid 5529] [evidence I
Catalysis of the transfer of a solute or solutes from one side of a membrane to the other accordi

"Interacting selectively with a nucleotide, any compound consisting of a nucleoside that is esteri

"Catalysis of the dimethylation two adjacent A residues in the loop closing the 3'-terminal stem c
"Catalysis of the reaction: (6S)-tetrahydrofolate + S-aminomethyldihydrolipoylprotein = (6R)-5,1(

Interacting selectively with any protein or protein complex (a complex of two or more proteins tha
Interacting selectively with DNA (deoxyribonucleic acid) [goid 3677] [evidence IEA]; Interacting s

ement cascade which allows for the direct killing of microbes, the disposal of immune complexes
Interacting selectively with any protein or protein complex (a complex of two or more proteins tha
"Elemental activities, such as catalysis or binding, describing the actions of a gene product at th

"Interacting selectively with one or more specific sites on a receptor molecule, a macromolecule

etween three and ten, of identical component monomers. Oligomers may be formed by the polyr

Interacting selectively with any protein or protein complex (a complex of two or more proteins tha

Interacting selectively with zinc (Zn) ions [goid 8270] [evidence IEA]; Interacting selectively with

The action of a molecule that contributes to the structural integrity of a complex or assembly witl

"Elemental activities, such as catalysis or binding, describing the actions of a gene product at th

Catalysis of the reaction: 3-alpha(S)-strictosidine = tryptamine + secologanin [goid 16844] [evide

Interacting selectively with any protein or protein complex (a complex of two or more proteins tha
"Elemental activities, such as catalysis or binding, describing the actions of a gene product at th

"Catalysis of the transfer of a methyl group to an acceptor molecule [goid 8168] [evidence IEA];

"Elemental activities, such as catalysis or binding, describing the actions of a gene product at th

"Elemental activities, such as catalysis or binding, describing the actions of a gene product at th
"Catalysis of the hydrolysis of a peptide bond. A peptide bond is a covalent bond formed when t

"Interacting selectively with any mono-, di- or trisaccharide carbohydrate [goid 5529] [evidence I

"Elemental activities, such as catalysis or binding, describing the actions of a gene product at th

Interacting selectively with any protein or protein complex (a complex of two or more proteins tha

Interacting selectively with any protein or protein complex (a complex of two or more proteins tha

"Elemental activities, such as catalysis or binding, describing the actions of a gene product at th

Interacting selectively with any protein or protein complex (a complex of two or more proteins tha

"Catalysis of the hydrolysis of internal, alpha-peptide bonds in a polypeptide chain by a mechani
"Catalysis of a biochemical reaction at physiological temperatures. In biologically catalyzed reac
Interacting selectively with any protein or protein complex (a complex of two or more proteins tha

"Elemental activities, such as catalysis or binding, describing the actions of a gene product at th

"The selective, often stoichiometric, interaction of a molecule with one or more specific sites on

Interacting selectively with any protein or protein complex (a complex of two or more proteins tha

Interacting selectively with calcium ions (Ca2+) [goid 5509] [evidence IEA]

EA]; The import of proteins across the outer and inner mitochondrial membranes into the matrix.

of proteolytic caspases, whose actions dismantle the cell and result in cell death. Apoptosis begi

ement cascade which allows for the direct killing of microbes, the disposal of immune complexes

"Interacting selectively with GTP, guanosine triphosphate [goid 5525] [evidence IEA]"

"Catalysis of the transfer of a methyl group to an acceptor molecule [goid 8168] [evidence IEA];

Interacting selectively with any protein or protein complex (a complex of two or more proteins tha

"Stops, prevents or reduces the activity of an endopeptidase, any enzyme that hydrolyzes nonte
Combining with an extracellular or intracellular messenger to initiate a change in cell activity [goi
Interacting selectively with any protein or protein complex (a complex of two or more proteins tha

Catalysis of the reaction: ATP + NAD+ = ADP + NADP+ [goid 3951] [evidence IEA]

Interacting selectively with an identical protein or proteins [goid 42802] [evidence IEA]

"The function of binding to a specific DNA sequence in order to modulate transcription. The tran

ement cascade which allows for the direct killing of microbes, the disposal of immune complexes

"Elemental activities, such as catalysis or binding, describing the actions of a gene product at th

Combining with the hedgehog protein to initiate a change in cell activity [goid 8158] [evidence IE

Interacting selectively with any protein or protein complex (a complex of two or more proteins tha

Increases the rate of GTP hydrolysis by a GTPase of the Rab family [goid 5097] [evidence IEA]

"Elemental activities, such as catalysis or binding, describing the actions of a gene product at th

"Enables the directed movement of substances (such as macromolecules, small molecules, ions
"Interacting selectively with ATP, adenosine 5'-triphosphate, a universally important coenzyme a

Interacting selectively with any protein or protein complex (a complex of two or more proteins tha

"Interacting selectively with ATP, adenosine 5'-triphosphate, a universally important coenzyme a

"Elemental activities, such as catalysis or binding, describing the actions of a gene product at th

"Elemental activities, such as catalysis or binding, describing the actions of a gene product at th

"The selective, often stoichiometric, interaction of a molecule with one or more specific sites on

"Catalysis of the transfer of a group, e.g. a methyl group, glycosyl group, acyl group, phosphorus

Interacting selectively with any metal ion [goid 46872] [evidence IEA]
"Elemental activities, such as catalysis or binding, describing the actions of a gene product at th

"The selective, often stoichiometric, interaction of a molecule with one or more specific sites on

"The selective, often stoichiometric, interaction of a molecule with one or more specific sites on

"Stimulates the exchange of guanyl nucleotides by a GTPase. Under normal cellular physiologic

"Catalysis of the reaction: ATP + shikimate = ADP + shikimate 3-phosphate [goid 4765] [evidenc

Interacting selectively with any protein or protein complex (a complex of two or more proteins tha

Interacting selectively with calcium ions (Ca2+) [goid 5509] [evidence IEA]

"Catalysis of the hydrolysis of various bonds, e.g. C-O, C-N, C-C, phosphoric anhydride bonds,
"Elemental activities, such as catalysis or binding, describing the actions of a gene product at th
"Interacting selectively with a nucleotide, any compound consisting of a nucleoside that is esteri

Interacting selectively with any nucleic acid [goid 3676] [evidence IEA]

"The selective, often stoichiometric, interaction of a molecule with one or more specific sites on

"Elemental activities, such as catalysis or binding, describing the actions of a gene product at th

"Elemental activities, such as catalysis or binding, describing the actions of a gene product at th

"Elemental activities, such as catalysis or binding, describing the actions of a gene product at th

"Interacting selectively with GTP, guanosine triphosphate [goid 5525] [evidence IEA]"
"Interacting selectively with a CARD (N-terminal caspase recruitment) domain, a protein-protein

"Elemental activities, such as catalysis or binding, describing the actions of a gene product at th
Catalysis of the reaction: H2CO3 = CO2 + H2O [goid 4089] [pmid 9878252] [evidence TAS]; Inte
"Catalysis of the reaction: H2CO3 = CO2 + H2O [goid 4089] [evidence IEA]; Interacting selective
