

## Supplementary Material

**Figure S1. Specific motifs in HDS1 regulate Golgi recruitment of GBF1**

HeLa cells expressing the indicated construct were processed for IF with anti-GFP and anti-GM130. Bar represents 7 μm.

**Figure S2. Specific motifs in HDS1 regulate Golgi recruitment of GBF1**

HeLa cells expressing the indicated construct were processed for IF with anti-GFP and anti-GM130. Bar represents 7  $\mu$ m.
