Dear Mr./Ms.,

We have submitted a review article to the journal *Biomaterials* of Elsevier. This review has not been accepted yet. In this review we reused Figure 2 from the article "Reduction in Left Ventricular Wall Stress and Improvement in Function in Failing Hearts using Algisyl-LVR" with minor adaption to make the text clearer. We would like to request permission from JOVE for reusing the mentioned content in our review as Elsevier requires copyright clearances. Please inform us the decision with written notice.

Thank you,
Yang
