

Description of Additional Supplementary Files

File Name: Supplementary Data 1

Description: The 1,000 most Mendelian probes, showing the probe name, the statistic ΔI , the maximized log-likelihoods I_{mix} and I_{Mendel} and the Mendelian model's maximum likelihood estimates of the M-value mean and standard deviation for non-carriers (μ_0 and sd_0 , respectively) and carriers (μ_1 and sd_1 , respectively).

File Name: Supplementary Data 2

Description: Families and participants included in this study. Families and individuals were deidentified.
