

P3 to SCA2_{CAG72} RNA

$$K_D = 35.55 \pm 7.31 \mu\text{M}$$

Supplemental Figure S5. Binding affinity of P3 toward SCA2_{CAG72} RNA.

iTC study of the binding affinity of P3 (2 mM) to SCA2_{CAG72} RNA (4 μM) was performed. The top panel shows the raw thermogram and the bottom panel shows the binding isotherm fitted to a single-site model. Experiments were repeated three times and plotted as mean \pm S.E.M..
