

Web Table 1. Detail of each damage level, Iwanuma, Japan, 2010–2013

Grade	Criterion
No damage	Not affected.
Partial	Under 20% structural damage or inundation below the floor.
Minor	20% to 40% structural damage or inundation above the floor.
Major	40% to 50% structural damage or inundation approximately 1 meter above the floor.
Destroyed	Over 50% structural damage, inundation up to ceiling in the first floor, or completely washed away. Uninhabitable beyond repair.

Web Table 2. The Frequencies of Missing Information according to missing information on number of remaining teeth at baseline (n = 3,567), Iwanuma, Japan; 2010–2013

Characteristics	No. of remaining teeth at baseline
