

Ruminococcus champanellensis

butyrate-producing bacterium

Peptoclostridium difficile

Bifidobacterium breve

Victivallis vadensis

Bifidobacterium adolescentis

Bifidobacterium longum

Bifidobacterium dentium

Blautia obeum

Ruminococcus torques

Dorea formicigenerans

Dorea longicatena

Eubacterium ventriosum

Clostridium scindens

Eubacterium hallii

Ruminococcus gnavus

Coprococcus eutactus

Clostridium sp.

Anaerostipes caccae

Clostridium bolteae

Collinsella aerofaciens

Clostridium leptum

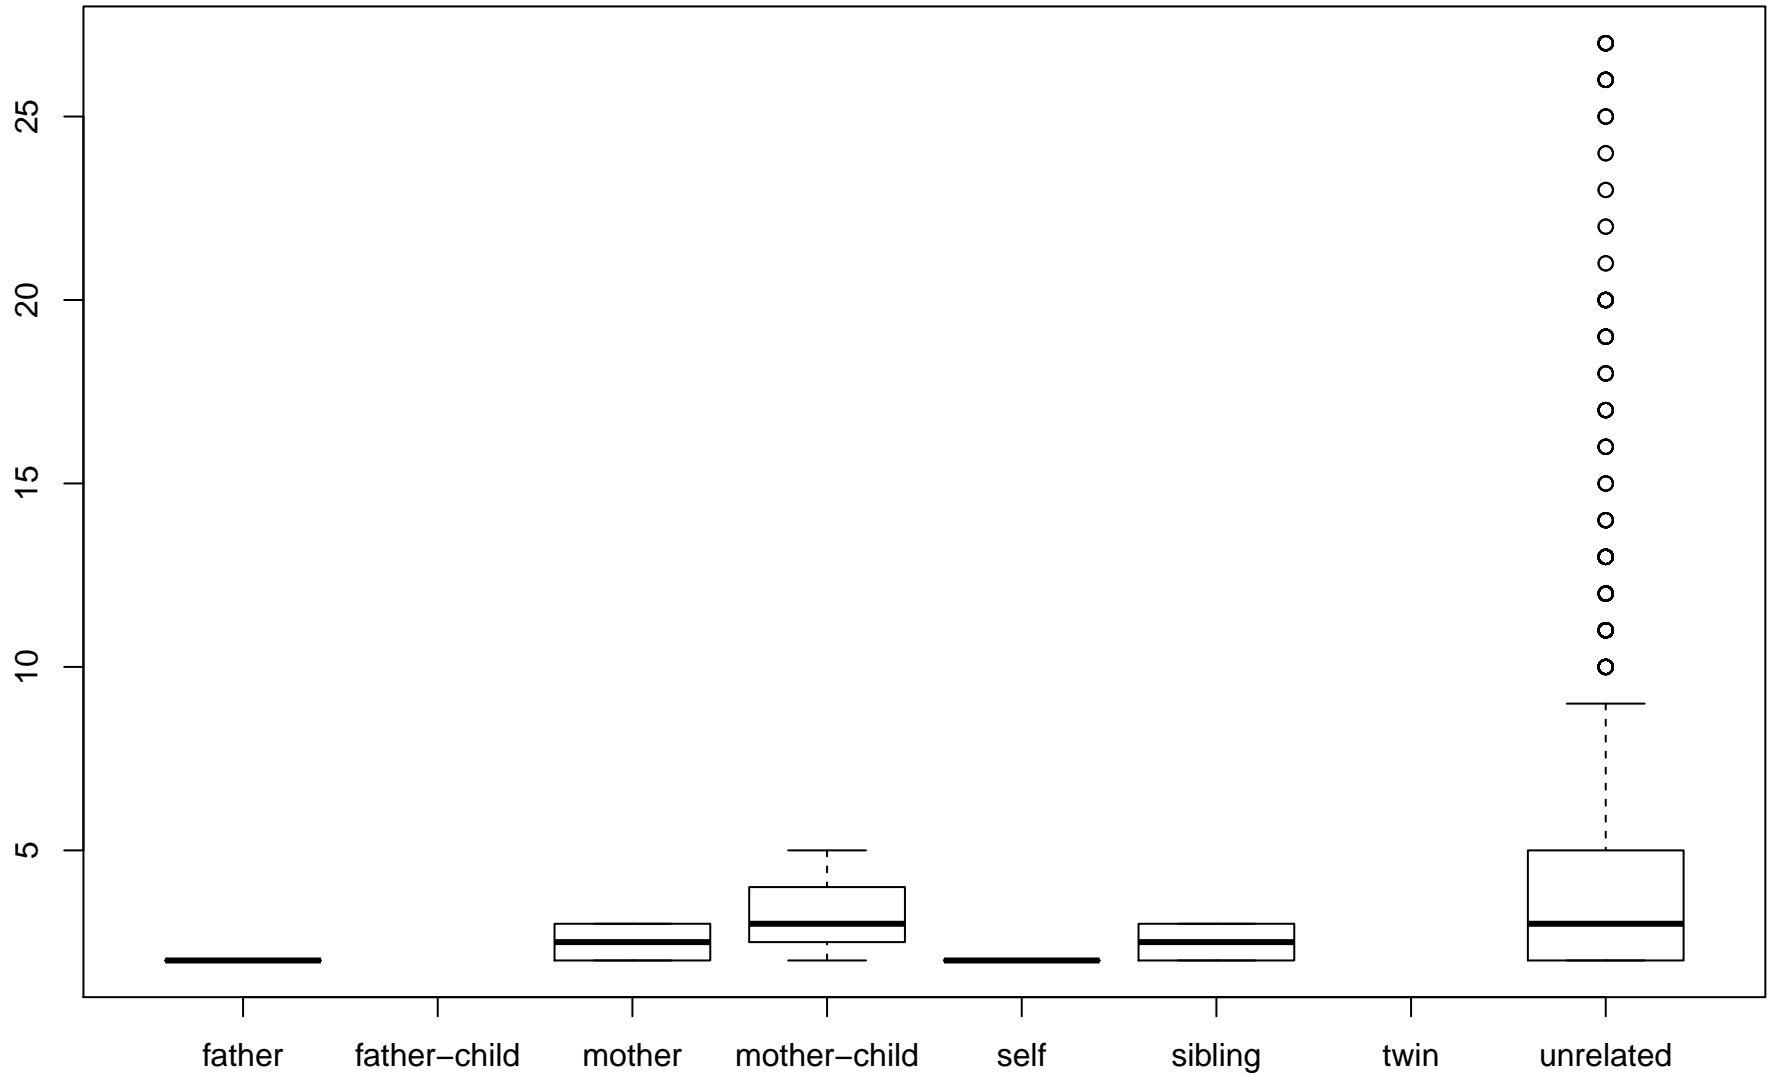

Clostridium spiroforme

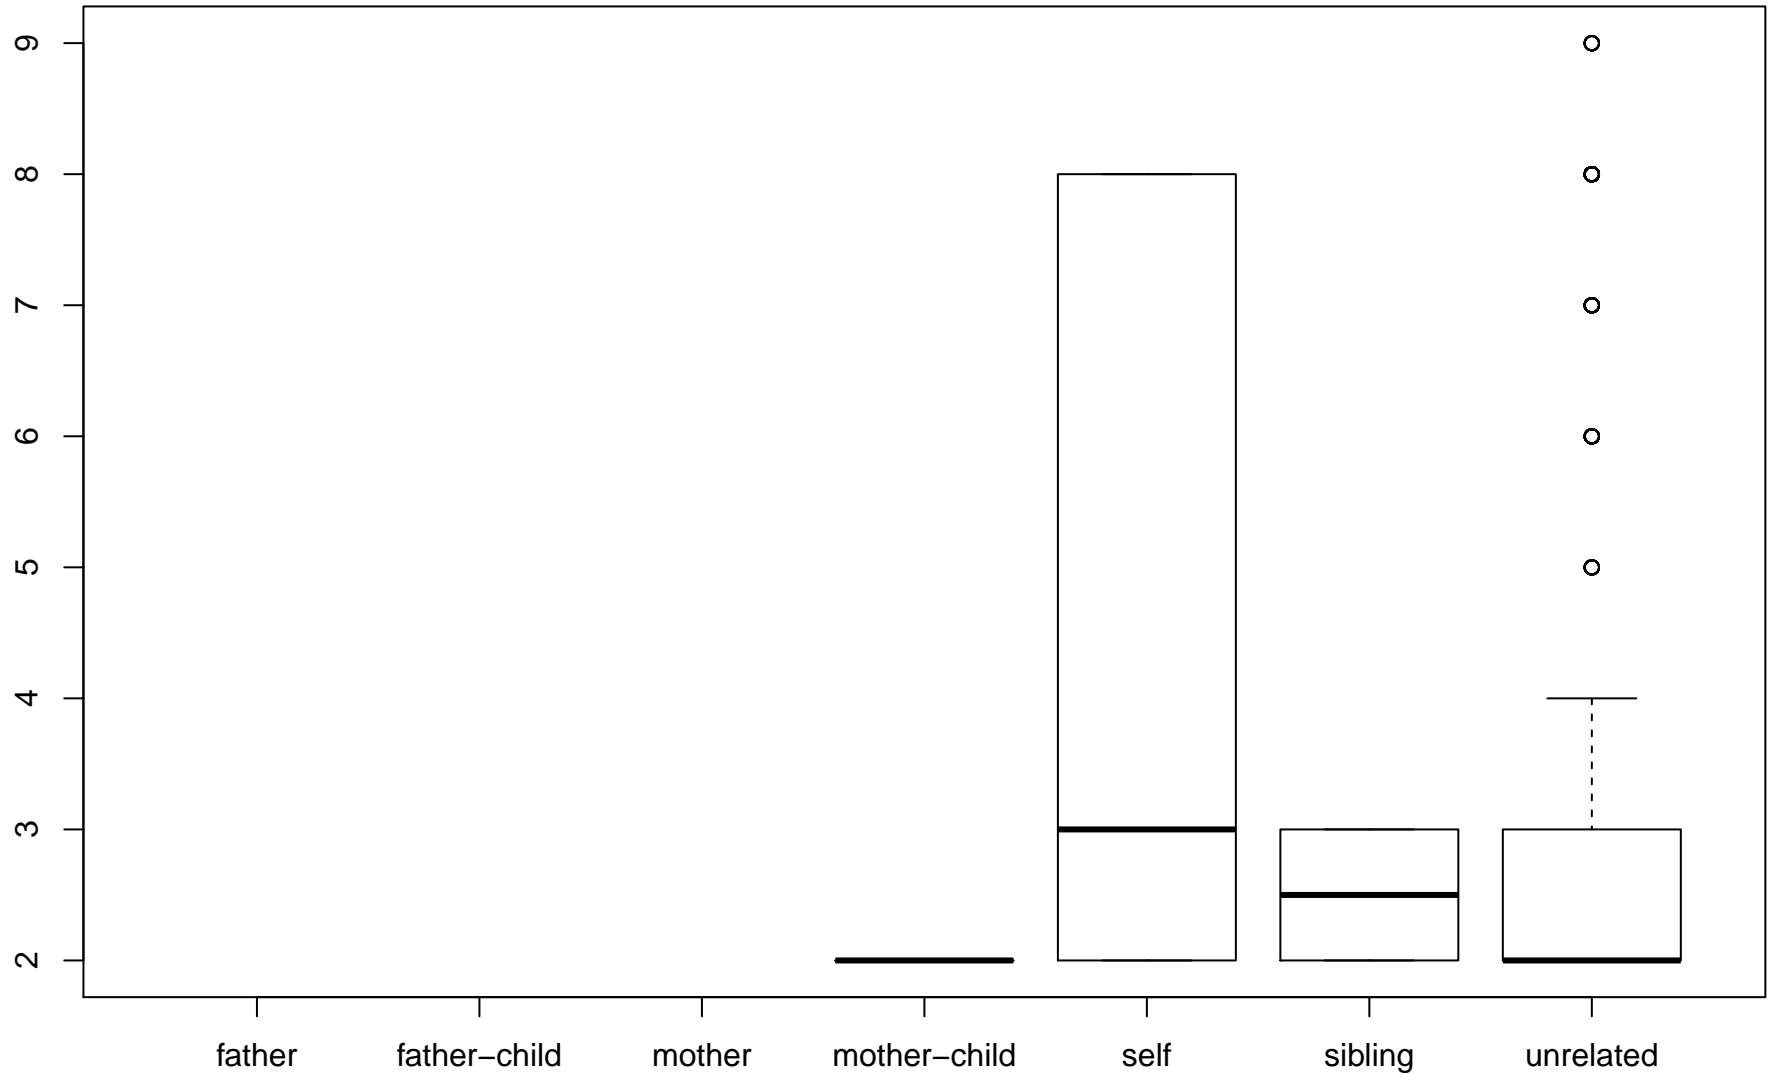

Anaerotruncus colihominis

Intestinibacter bartlettii

Erysipelatoclostridium ramosum

Coprobacillus sp.

Coprococcus comes

Ruminococcus lactaris

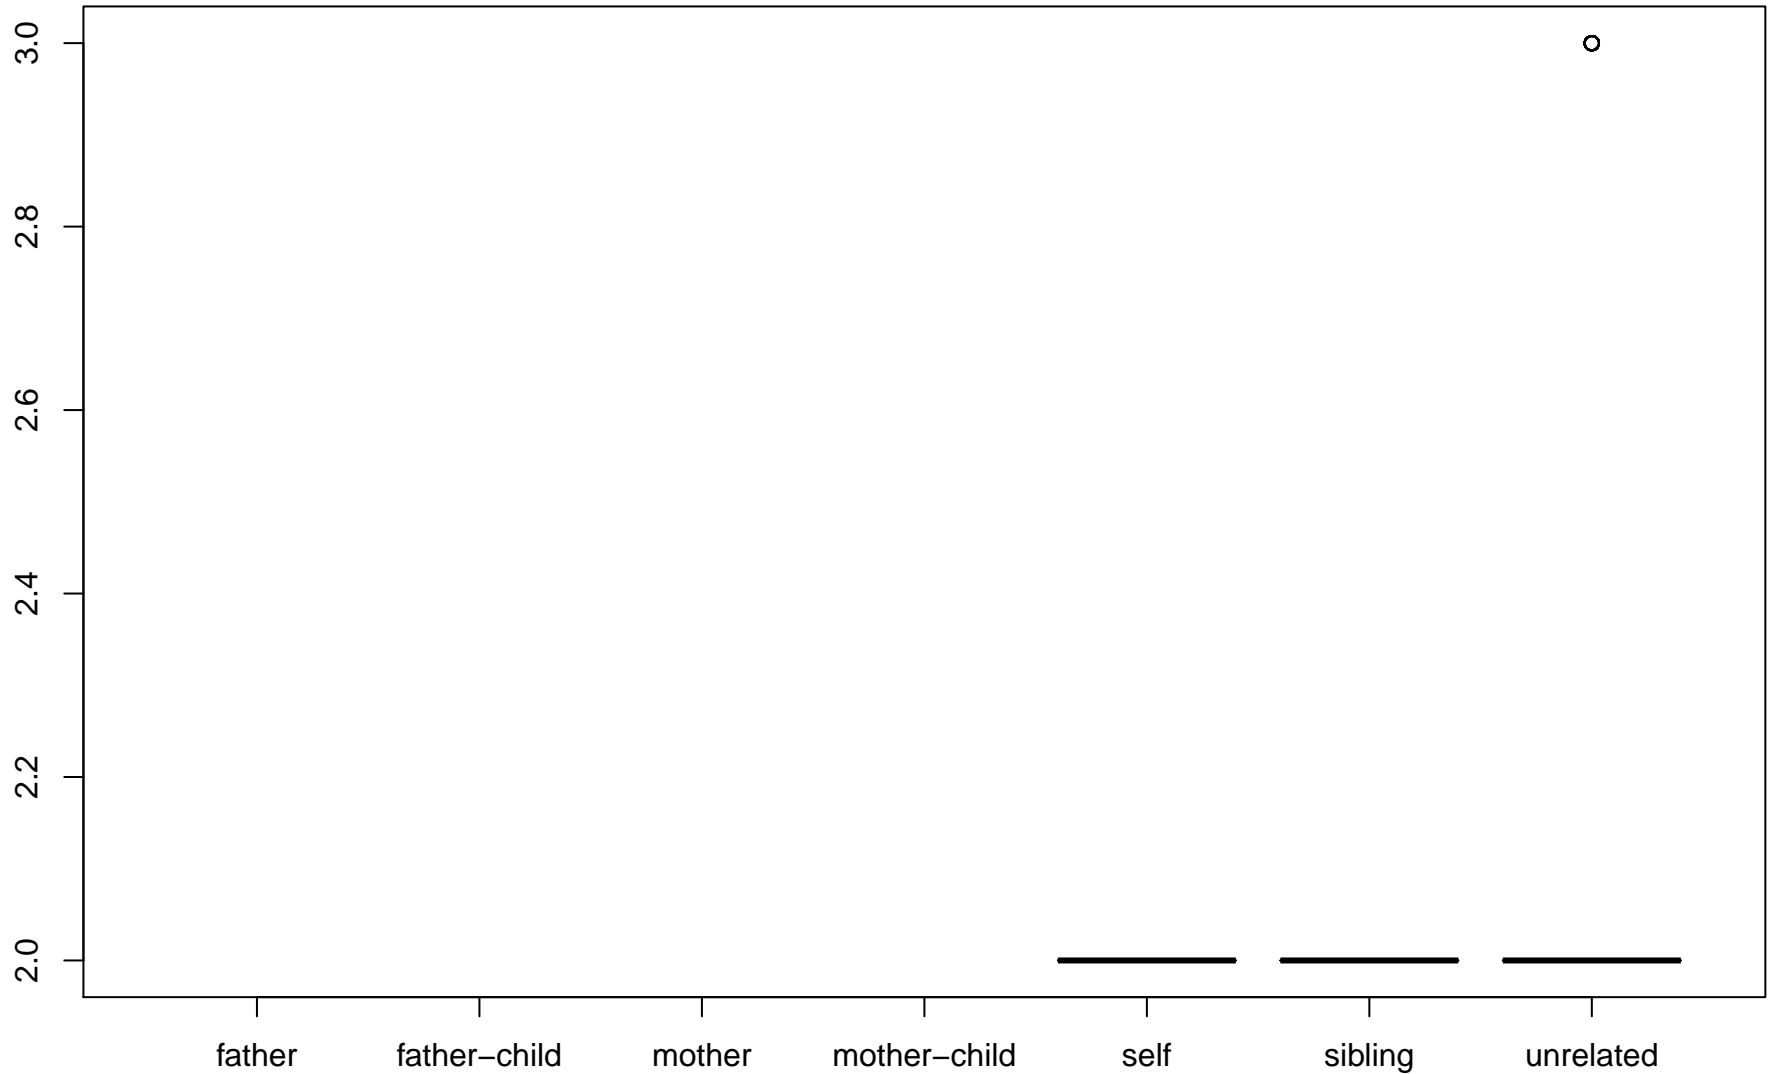

Blautia hydrogenotrophica

Veillonella parvula

Eggerthella lenta

Butyrivibrio crossotus

Eubacterium eligens

Bifidobacterium angulatum

Collinsella intestinalis

Actinomyces urogenitalis

Blautia hansenii

Veillonella dispar

Bifidobacterium pseudocatenulatum

Erysipelotrichaceae bacterium

Ruminococcaceae bacterium

Bifidobacterium animalis

Roseburia hominis

Roseburia inulinivorans

Eubacterium siraeum

Ruminococcus sp.

Lachnospiraceae bacterium

Turicibacter sanguinis

Bifidobacterium bifidum

Megasphaera micronuciformis

Clostridium cf.

Faecalitalea cylindroides

Coprococcus catus

Clostridium symbiosum

Veillonella atypica

Veillonella sp.
