

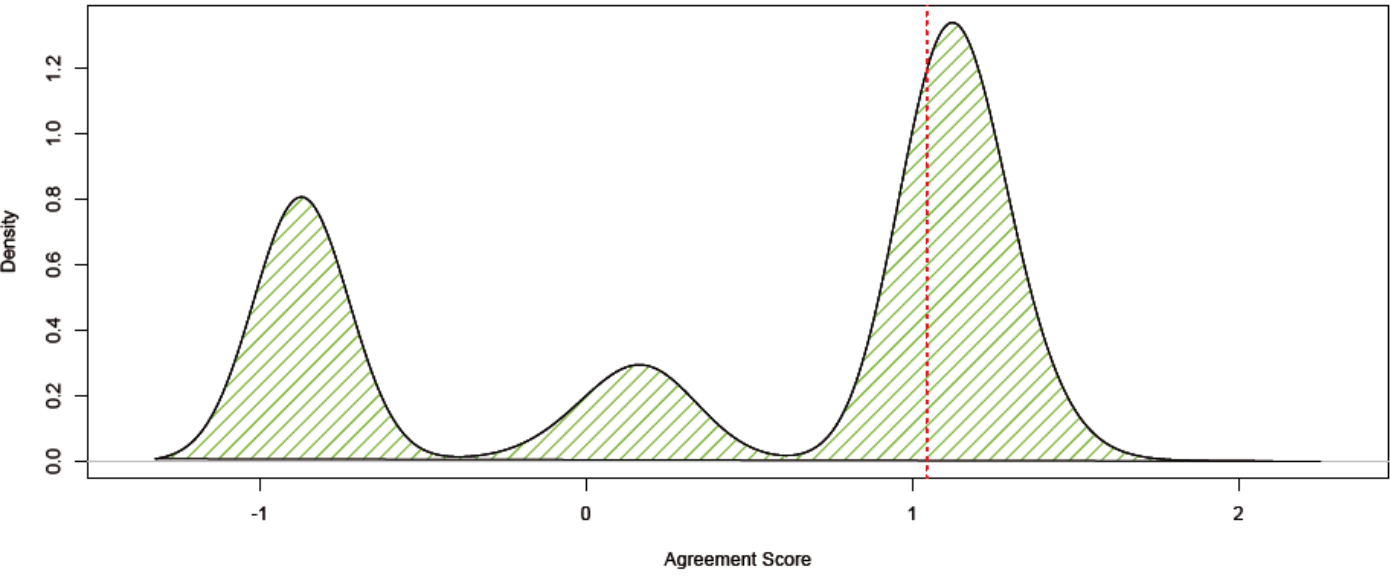

Fig S1. Gaussian Kernel Density plot of miRGate Agreement Score of the miRNAs identified associated with the *CDKN1C*, *E2F1* and *TP53* genes. Red dashed line represents the median value (1.04) of the Agreement Scores. A= Gaussian Kernel Density plot of miRGate Agreement Score of all the microRNAs; B= Gaussian Kernel Density plot of miRGate Agreement Score only for the microRNAs experimentally validated according with the information shown in miRGate..
