

A Jurkat 76 based triple parameter reporter system to evaluate TCR functions and adoptive T cell strategies

SUPPLEMENTARY MATERIALS

Supplementary Figure 1: Characterization of tumor cell lines and Jurkat T cell lines. (A) Expression of costimulatory and adhesion molecules was measured by flow cytometry and geometric mean fluorescent intensity (gMFI) is shown in the form of a heatmap. (B) The two Jurkat T cell lines JE6.1 and J76 were analyzed for their expression of the adhesion molecules CD2 and CD226.
