

S2 Table. Mathematical models used for each PDX growth curve

Two-slope mixed effect repeated measures	Linear mixed effect repeated measures
Model 3 passage 3 (radiation, chemorad) Model 4 passage 4 (radiation) Model 4 passage 5 (radiation, chemo, chemorad) Model 5 passage 3 (radiation) Model 6 passage 3 (chemo, chemorad) Model 8 passage 3 (chemorad) Model 8 passage 5 (LDE225+radiation)	All other treatment groups All control groups
