

CENPU facilitates ovarian cancer progression

Supplementary Table 1. Correlation between clinic-pathological features and CENPU expression in ovarian cancer tissues

Variables	No. of cases	CENPU expression		<i>P</i> value
		Low	High	
Age (years)		<i>P</i> > 0.05		
< 60	21	11	10	
≥ 60	25	13	12	
Tumor size		<i>P</i> > 0.05		
< 5	29	16	13	
≥ 5	17	7	10	
FIGO stage		<i>P</i> < 0.01		
I-II	33	15	18	
III-IV	13	8	5	
Histological grading		<i>P</i> < 0.01		
1/2	31	21	10	
3	15	11	4	
Lymph node metastasis		<i>P</i> < 0.01		
No	27	16	9	
Yes	19	8	11	

Supplementary Figure 1. HMGB2 expression is positively associated with CENPU expression in ovarian cancer. Oncomine analysis of co-expression genes with CENPU. 0. No value (8); 1. Ovarian cancer (586).
