S1 Fig. Clicking and buzzing examples from files sampled at high and low sampling rates.

(A) Sample from a high-frequency file (154,868 Hz sampling rate). (B) Sample from a low-frequency file (25,811 Hz sampling rate). (C) Same sample as (B), but high-pass filtered at 1.5 kHz. Arrows point to (terminal) buzzes. All samples shown are from Freya's record.
