

Descriptions of Additional Supplementary Files

File Name: Supplementary Data 1

Description: This file contains the list of SNP associated with COs in male and female meioses in the B73 x Mo17 hybrid.

File Name: Supplementary Data 2

Description: This file contains the list of recombination hotspots (i.e. regions 5 kbp in length exhibiting CO rates at least five-fold higher than the genome average¹) in male and female meioses in the B73 x Mo17 hybrid.
