

Supplementary Table 3. Duration of ZIKV RNA detection in bodily fluids of ZIKV rRT-PCR-positive study participants who presented Zika-associated symptoms.

	Serum/ Plasma	Saliva	Urine
N ¹	25	51	86
Range ²	6	6	21
Mean ³	2.56	3.10	5.94
Standard Deviation	1.53	1.50	3.80
Median ⁴	2.00	3.00	5.00
Variance	2.34	2.25	14.55

¹Number of ZIKV rRT-PCR-positive samples from Zika cases that were included in the analysis of duration of ZIKV RNA detection

²Range of duration of ZIKV positivity in days post-symptom onset

³Mean duration of ZIKV positivity in days post-symptom onset

⁴Median duration of ZIKV positivity in days post-symptom onset
