REVIEWERS' COMMENTS:

Reviewer #1 (Remarks to the Author):

The authors have addressed all of my comments. This is a very nice study. One minor quibble. Throughout the text the authors now use the term "depression-like behaviors" which is appropriate. Likewise, the title should be changed to "depression-like behaviors" instead of "depression".

Reviewer #2 (Remarks to the Author):

I am impressed with the additional amount of work performed by the authors. I have no additional comments.
