

# Whatsapp use for MFM specialists survey

This tool has been developed to assess the usefulness of the UofT MFM Grads Whatsapp group in clinical practice and also for ongoing improvement.

Your name is asked in order to keep track of all the group members and to avoid double entries.

All information will remain confidential and used for research purposes only.

Thank you

\_\_\_\_\_

*Skip to question 11.*

## UofT MFM Whatsapp Group - Not participated

9. **Why not? (select all that apply) Please specify if "Other" \***

*Tick all that apply.*

- I don't like participating in mass chat groups
- I don't like participating in mass chat groups. But I enjoy reading the discussions that take place
- I don't have the need to ask for online peer advice. I do this with my own local team
- I don't have an answer for the questions asked
- I don't have the time to read or write on the group
- It's too much, I just muted it and go into it every once in a while
- It's muted and I never look at it
- Whatsapp doesn't work properly on my phone (i.e.: get delayed messages or notifications)
- Other: \_\_\_\_\_

10. **What changes would you make to the group in order to start using it? \***

---

## Regardless if you have or not posted before, Do you think the Whatsapp group has been helpful in...
