S1 FIGURE. Longitudinal change in regional nCBV. Regional nCBV (mean and 95% CI) graphically displayed for the different examinations in consecutive order. Derived *P*-values are included, and emphasised in bold and italics if less than 0.05.

52 FIGURE. Longitudinal change in regional nCBF. Regional nCBF (mean and 95% CI) graphically displayed for the different examinations in consecutive order. Derived P-values are included, and emphasised in bold and italics if less than 0.05.

S3 FIGURE. Dose-dependent relative change and linear regression model for nCBF. Shows regional relative change for nCBF and derived line regression (line and equation).
