

Supplemental Figure for:
 Costs of cancer care across the disease continuum
 Deborah Kaye et al.

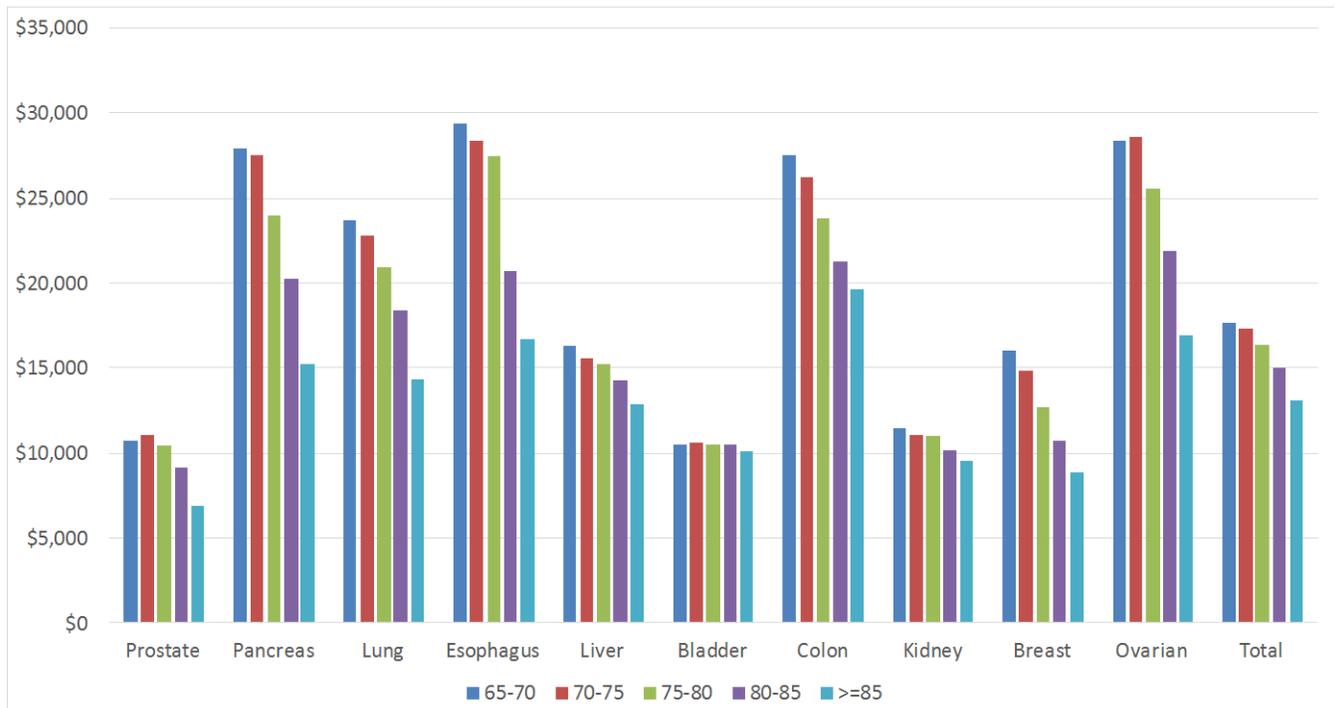

Figure S1: Example patient attribution over the cancer care continuum

Patient A: Time from diagnosis to death = 8 months
 Patient B: Time from diagnosis to death = 16 months
 Patient C: Time from diagnosis to death = 36 months
 Patient D: Patient still alive 15 months after diagnosis

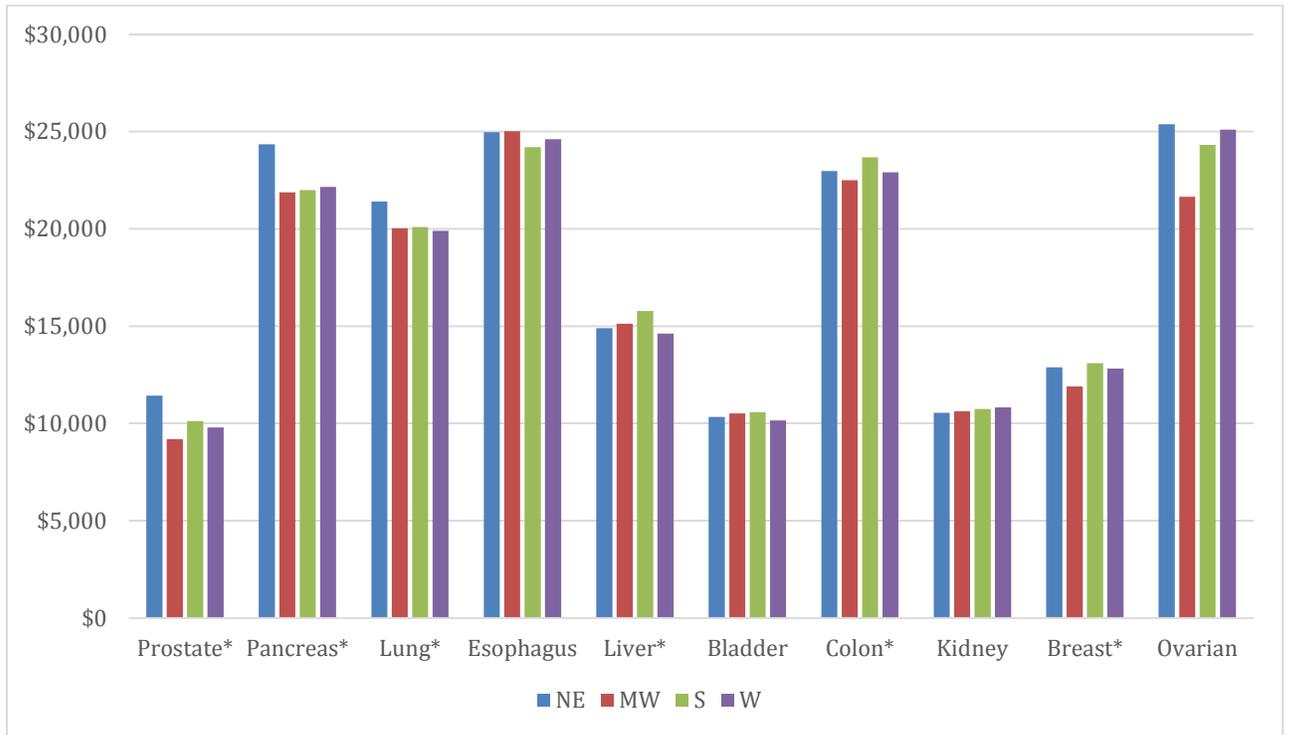

Supplemental Figure for:
Costs of cancer care across the disease continuum
Deborah Kaye et al.

Appendix Figure 2: Total average payments, by age

Supplemental Figure for:
Costs of cancer care across the disease continuum
Deborah Kaye et al.

Appendix Figure 3: Overall annual payments for cancer care, by geographic region
