

Screening Form
(Draft 1 – not piloted)

1. POPULATION

Exclude if population restricts to:

- Older adults
- Children
- i.e. exclude if individuals between the ages of 15 and 25 are not included in the study.

2. DESIGN

Is the study design a randomized controlled trial or a quasi-experimental study?

If yes, go to next question.

- If no and indicates another study design (e.g. systematic review, book chapter), exclude.

3. INTERVENTION

i) Is the intervention of interest a brief intervention (i.e. 1 session)?

- If yes or unsure, continue intervention assessment.
- If included additional “booster” sessions but they report outcomes following the single sessions, continue intervention assessment.
- If no, exclude.

ii) Is the intervention focused on illicit substance use or cannabis use?

- If yes or unsure, continue intervention assessment.
- If focused on alcohol or not on substance use, exclude.

4. CONTROL

Is the comparator a within subjects pre-post test, passive-control (wait-list control, no intervention, treatment as usual), **or active control** (i.e. educational sessions, handouts)?

- If yes or unsure, continue to outcome assessment.
- If no, exclude.

5. OUTCOME

Is there an outcome on:

- **Cannabis related outcomes**
 - **Other substance use related outcomes**
 - **Mental health related outcomes**
 - **Academic or Occupational outcome**
- If yes, include.
 - If no, exclude.
