S3 Appendix. The package installation

- Windows users should install "Rtools" before installation of this package.

- The package SILGGM is available on CRAN and can be installed using the following R commands:

  install.packages("Rcpp")

  install.packages("SILGGM")

  The first line can be omitted if "install dependencies" is checked in the R package installer.

- When the source code file "SILGGM_1.0.0.tar.gz" is downloaded from CRAN, the package can also be installed:

  install.packages("Rcpp")

  install.packages(pkgs = "SILGGM_1.0.0.tar.gz", repos = NULL, type = "source")
