

PEER-REVIEW REPORT 1

Name of journal: Neural Regeneration Research

Manuscript NO: NRR-D-18-00315

Title: Exploring the use of transcranial photobiomodulation in Parkinson's disease patients

Reviewer's Name: Maria Antonietta Panaro

Reviewer's country: Italy

Date sent for review: 2018-05-14

Date reviewed: 2018-05-16

Review time: 2 Days

COMMENTS TO AUTHORS

The work is very interesting and originated and can be considered for a possible publication in this journal.

Here are some suggestions to implement to the text:

- 1) A careful check of the English is required.
- 2) This last sentence can be inserted at pag. 2 line 3:

In this context it should be noted that in the literature immunomodulatory effects have been described following treatment in PD animal models with physical agents able to improve neurodegeneration associated to neuroinflammatory picture observed in course of PD (Panaro MA et al., *Neurosci Bull.* 2018 Apr;34(2):270-282).
