

SUPPLEMENT TABLE 1, Demographics of study participants

Continent of Origin*

Asia	9
Europe	5
North America	3
South America	1

Countries of Origin

Brazil	1 [^]
China	3
India	2
Mexico	3
Mongolia	1 [^]
Saudi	3
Serbia	5

[^]The sessions were done in a team of three clinicians, however only one clinician from these sites attended the both pre and post sessions. Other participants can only attend only either pre or post training session due to shift changes. As we wanted to make sure we could perform a matched pair analysis, one clinician performance was used for analysis for above mentioned centers.

Gender and professionals

	Physicians	Nurses	Total
Male	10	0	10
Female	6	2	8
