Multiple faces of succinate beyond metabolism in blood

Franco Grimolizzi and Lorena Arranz

Disclosures: The authors declare no competing financial interests. Our work is supported by a joint meeting grant of the Northern Norway Regional Health Authority, the University Hospital of Northern Norway (UNN) and UiT The Arctic University of Norway (UiT) (2014/5668), Young Research Talent grants from the Research Council of Norway, (Stem Cell Program, 247596; FRIPRO Program, 250901), and grants from the Norwegian Cancer Society (6765150), the Northern Norway Regional Health Authority (HNF1338-17), and the Aakre-Stiftelsen Foundation (2016/9050) to L. Arranz. Correspondence and requests should be addressed to L. Arranz (e-mail: lorena.arranz@uit.no).

Contributions: F. Grimolizzi and L. Arranz wrote the manuscript and designed the figures.
