## Supplementary file 1. Data Extraction Form

Paper number Date of extraction Reviewer Bibliographic details of study  Purpose of study  Methodological or Statistical techniques used  Population Intervention & Setting Comparison/Main alternative being considered  Outcomes/Conclusions  Study design/characteristics Evidence for Content  Evidence for Response Process Evidence for Internal structure		
Reviewer  Bibliographic details of study  Purpose of study  Methodological or Statistical techniques used  Population Intervention & Setting  Comparison/Main alternative being considered  Outcomes/Conclusions  Study design/characteristics  Evidence for Content  Evidence for Response Process	Paper number	
Bibliographic details of study  Purpose of study  Methodological or Statistical techniques used  Population Intervention & Setting  Comparison/Main alternative being considered  Outcomes/Conclusions  Study design/characteristics  Evidence for Content  Evidence for Response Process	Date of extraction	
Purpose of study  Methodological or Statistical techniques used  Population Intervention & Setting  Comparison/Main alternative being considered  Outcomes/Conclusions  Study design/characteristics  Evidence for Content  Evidence for Response Process	Reviewer	
Methodological or Statistical techniques used  Population Intervention & Setting Comparison/Main alternative being considered  Outcomes/Conclusions Study design/characteristics Evidence for Content  Evidence for Response Process	Bibliographic details of study	
Methodological or Statistical techniques used  Population Intervention & Setting Comparison/Main alternative being considered  Outcomes/Conclusions Study design/characteristics Evidence for Content  Evidence for Response Process		
Population Intervention & Setting Comparison/Main alternative being considered  Outcomes/Conclusions Study design/characteristics Evidence for Content  Evidence for Response Process	Purpose of study	
Population Intervention & Setting Comparison/Main alternative being considered  Outcomes/Conclusions Study design/characteristics Evidence for Content  Evidence for Response Process		
Intervention & Setting  Comparison/Main alternative being considered  Outcomes/Conclusions  Study design/characteristics  Evidence for Content  Evidence for Response Process	Methodological or Statistical techniques used	
Intervention & Setting  Comparison/Main alternative being considered  Outcomes/Conclusions  Study design/characteristics  Evidence for Content  Evidence for Response Process	Population	
Comparison/Main alternative being considered  Outcomes/Conclusions  Study design/characteristics  Evidence for Content  Evidence for Response Process	•	
Considered  Outcomes/Conclusions  Study design/characteristics  Evidence for Content  Evidence for Response Process		
Outcomes/Conclusions Study design/characteristics Evidence for Content  Evidence for Response Process	Comparison/Main alternative being	
Study design/characteristics Evidence for Content  Evidence for Response Process	considered	
Study design/characteristics  Evidence for Content  Evidence for Response Process		
Evidence for Content  Evidence for Response Process	Outcomes/Conclusions	
Evidence for Content  Evidence for Response Process	Study design/characteristics	
Evidence for Response Process		
Evidence for Internal structure	Evidence for Response Process	
	Evidence for Internal structure	
Evidence for Relationship to other		
variables	variables	
Evidence for Consequences	Evidence for Consequences
