Figure S1: *Kaplan Meijer curves presenting time to incident CVD for cancer survivors versus age-, gender-, and geographically- matched cancer-free controls separately for each malignancy*
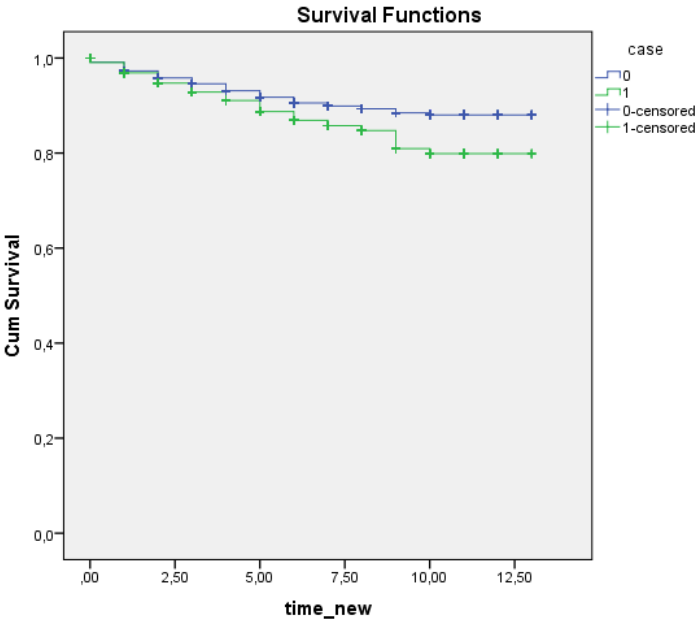

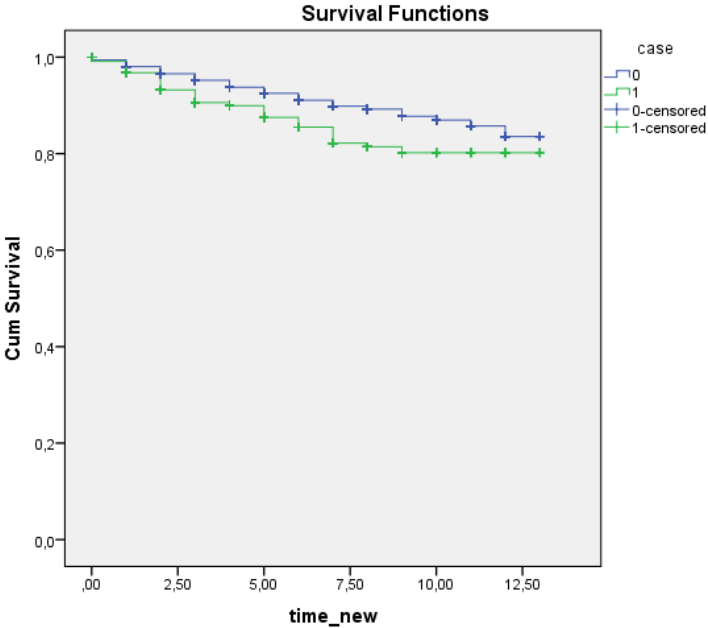

Breast cancer (log-rank statistic = 0.83)

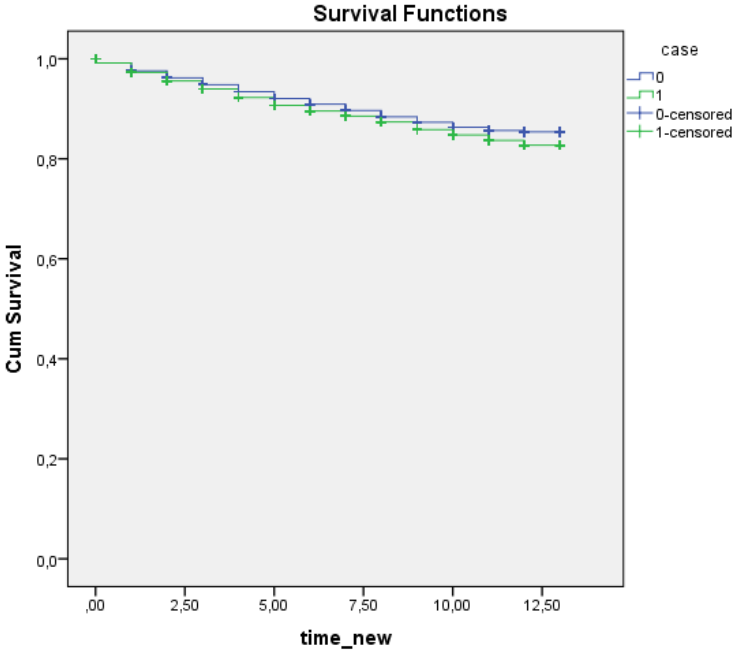

Prostate cancer (log-rank statistic p<0.01)

Non-Hodgkin (log-rank statistic p<0.01)

Lung & trachea cancer (log-rank statistic, p<0.01)

Basal cell carcinoma (log-rank statistics P<0.01)

Colorectal cancer (log-rank statistic, p=0.07)
