

## (i) FACS analysis data of UD SCC-2 (HPV16+ve)

### (a) With verapamil

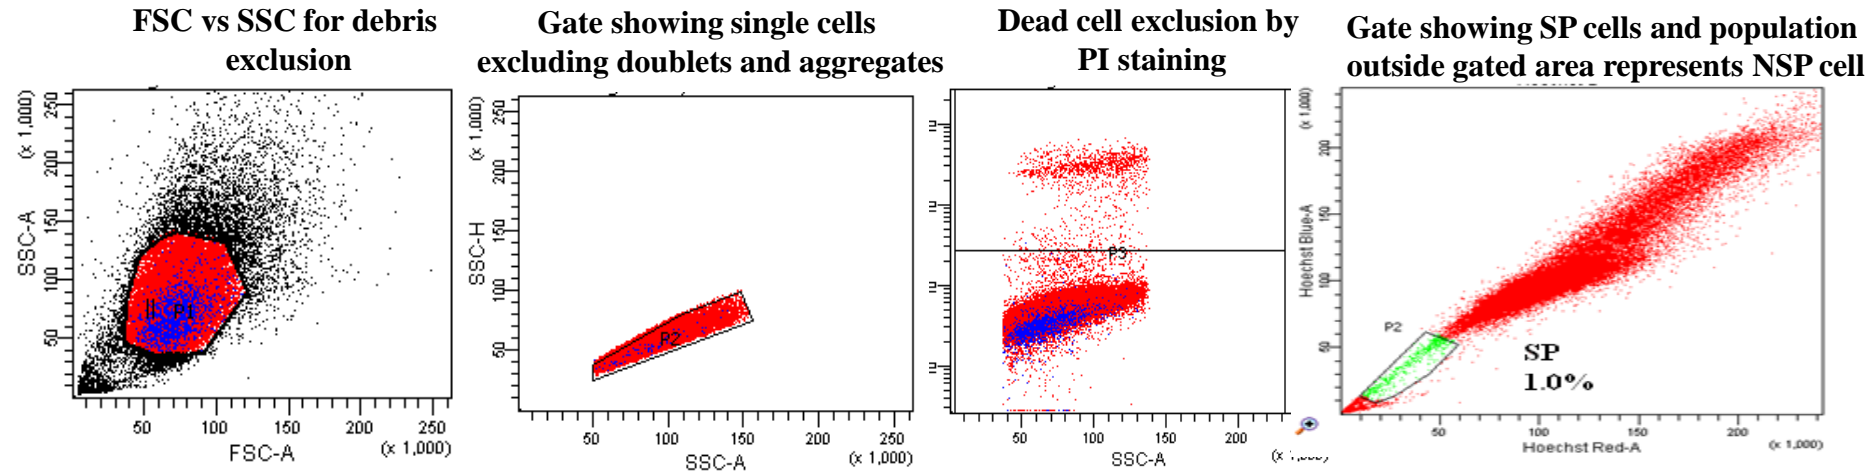

### (b) Without verapamil

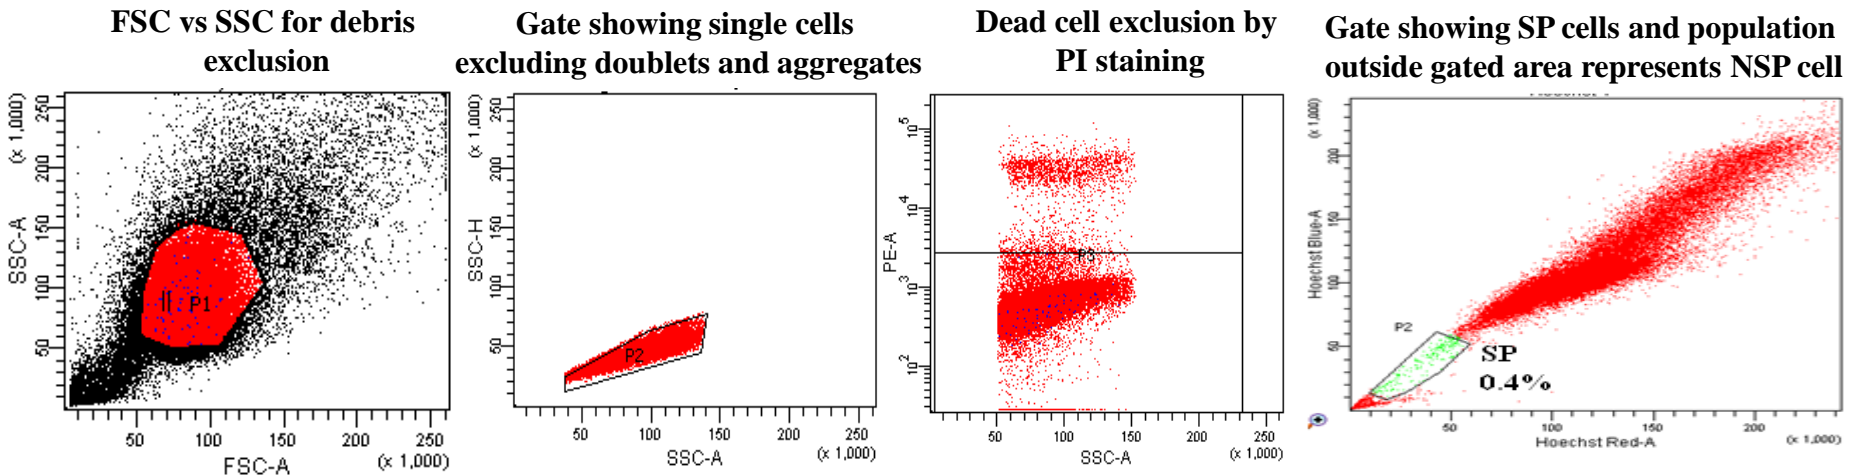

## (ii) FACS analysis data of UPCI:SCC131 (HPV-ve)

### (a) With verapamil

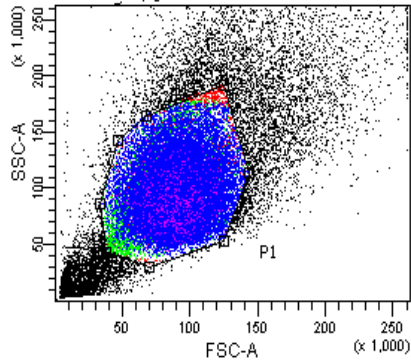

### (b) Without verapamil

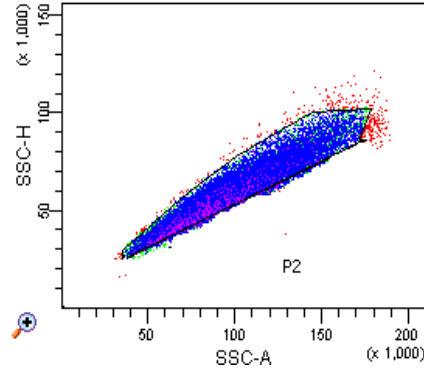

### (iii) FACS analysis data of UPCI:SCC084 (HPV-ve)

#### (a) With verapamil

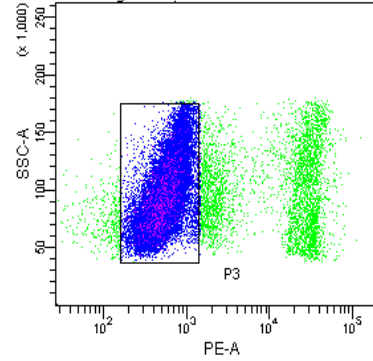

FSC vs SSC for debris exclusion

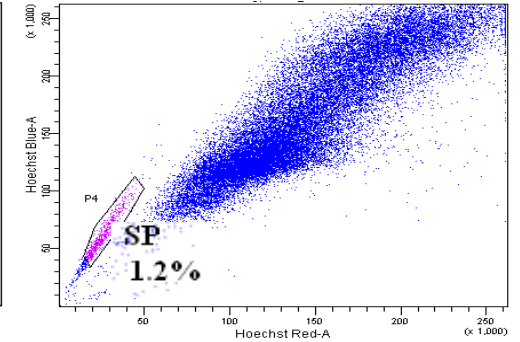

Gate showing single cells excluding doublets and aggregates

Dead cell exclusion by PI staining

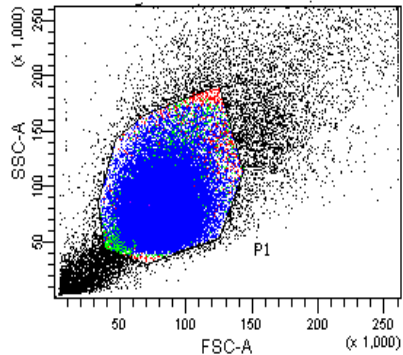

Gate showing SP cells and population outside gated area represents NSP cell

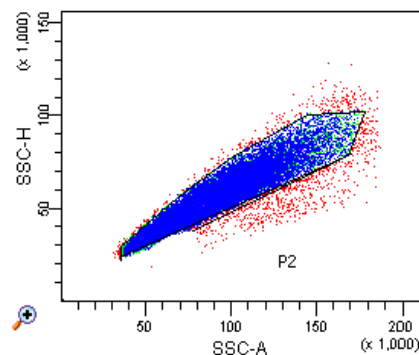

#### (b) Without verapamil

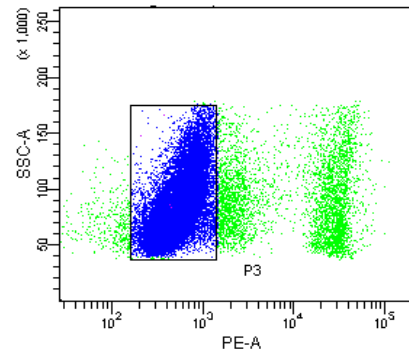

FSC vs SSC for debris exclusion

Gate showing single cells excluding doublets and aggregates

Dead cell exclusion by PI staining

Gate showing SP cells and population outside gated area represents NSP cell
