Table S1. Major and minor ECG abnormalities prevalence by obesity degree

ECG finding	Normal BMI (%)	I degree obesity (%)	P (vs. normal)	II degree obesity (%)	P (vs. normal)
Major	1.8	1.2	0.005	0.9	0.048
Minor	22.2	14.9	<0.0001	11.9	<0.0001
Total	23.9	16.0	<0.0001	12.8	<0.0001

Prevalence of major and minor ECG abnormalities found in normal, I and II degree obesity.

BMI indicates body-mass index
