

Growth of children in Greenland exceeds the World Health Organization growth charts

Kløvgaard M, Odgaard Nielsen N, Lund-Sørensen T, Bjerregaard P, Olsen B, Júlíusson P, Roelants M, Christesen H. – *Acta Paediatrica*, 2018

Supplementary tables (pages 2 – 8)

Table S1a[b]. Mean (SD) length/height, weight, BMI and head circumference and the corresponding mean (SD) z-scores according to the WHO growth standard (0–5 years) or reference (5–10 years) and the Danish growth references in Greenlandic girls [boys].

Table S2a[b]. Percentage (95% confidence interval) of girls [boys] above +2 SD according to the WHO and the Danish growth standards/references.

Table S3a[b]. Percentage (95% confidence interval) of girls [boys] below -2 SD according to the WHO and the Danish growth standards/references.

Table S4a[b]. Reference data (LMS parameters) and percentiles 3–97 of length/height in Greenlandic girls from 0–8 years [boys from 0–9 years].

Table S5a[b]. Reference data (LMS parameters) and percentiles 3–97 of weight in Greenlandic girls from 0–8 years [boys from 0–9 years].

Table S6a[b]. Reference data (LMS parameters) and percentiles 3–97 of the body mass index (BMI) in Greenlandic girls from 0–8 years [boys from 0–9 years].

Table S7a[b]. Reference data (LMS parameters) and percentiles 3–97 of head circumference in Greenlandic girls [boys] from 0.25–2 years.

Supplementary figures (pages 9 – 12)

Figure S1 Length, weight and head circumference in girls from birth to 18 months.

Figure S2 Length/height, weight and BMI in girls from 1.5–8 years.

Figure S3 Length, weight and head circumference in boys from birth to 18 months.

Figure S4 Length/height, weight and BMI in boys from 1.5–9 years.

Table S1a. Mean (SD) length/height, weight, BMI and head circumference and the corresponding mean (SD) z-scores according to the WHO growth standard (0–5 years) or reference (5–10 years) and the Danish growth references in Greenlandic girls.
