

## **Description of Additional Supplementary Files**

File Name: Supplementary Dataset 1

Description: JAGS model code. Monitored variables were the intercepts (alpha1, alpha2, alpha3); the standardized effect sizes of the explanatory variables (beta1, beta2, beta3); indicator variables denoting whether an explanatory variable has been selected or not (gamma1, gamma2, gamma3); and marginal and conditional variance explained by the models (rSq1, rSq2, rSq3). # precede comments.
