Supplemental Figure Legends

S1: Lacking of PLD does not alter the formation of platelet-immune cell-aggregates.

(A) Flow cytometric analysis of platelet-immune cell-aggregate formation 0, 24 und 72 hours post AMI in *Pld1*^{-/-}/*Pld2*^{-/-} mice vs. *wt*; Platelet – leukocyte-aggregate formation left, platelet – neutrophile – aggregate formation right (*Pld1*^{+/+}/*Pld2*^{+/+} n = 6; *Pld1*^{-/-}/*Pld2*^{-/-} n = 9).
