

Supplemental Table 1

HE Histologic scoring system	
0	no pathology (normal villi and crypts)
1	normal villi and crypts with mild increased inflammation
2	mild, multifocal villous blunting and crypt drop out
3	moderate, multifocal to coalescing villous blunting and crypt drop out
4	diffuse villous blunting and fusion with abundant crypt drop out
Masson's trichrome grading scale	
0	Normal
1	mild, multifocal increase in collagen within lamina propria and/or submucosa
2	moderate multifocal to coalescing increase in collagen within lamina propria and/or submucosa
3	moderate to marked and diffuse increase in collagen within lamina propria and/or submucosa
