

PEER-REVIEW REPORT 1

Name of journal: Neural Regeneration Research

Manuscript NO: NRR-D-18-00514

Title: Contactins in the central nervous system: role in health and disease

Reviewer's Name: Dario Siniscalco

Reviewer's country: Italy

Date sent for review: 2018-08-13

Date reviewed: 2018-09-03

Review time: 20 Days

COMMENTS TO AUTHORS

In this review article, the authors focalize on contactins.

While the description of the six members is complete and well done, authors failed to provide evidence between contactins involvement in autism spectrum disorders. They tentatively describe a potential link, however no description of autism is done (in the title also is absent), neither the basis of autism is given. Why they did correlate contactins and autism?
