eTable 1. Patients information. Age = age at injury in years; TBI = traumatic brain injury; GCS = best Glasgow Coma Score selected in the 24h acute electroencephalogram recording; Acute EEG = electroencephalogram recording performed at the acute stage (time post-injury in days); Acute MRI = Magnetic Resonance Imaging recording performed at the acute stage (time post-injury in days); Chronic MRI = Magnetic Resonance Imaging recording performed at the acute stage (time post-injury in days); Chronic MRI = Magnetic Resonance Imaging recording performed at 6-month follow-up (time post-injury in days); GOS- E_{6m} = Glasgow outcome scores – extended at 6 months.
