

Supplementary Figure 4

Supplementary Figure 4. *HrasQ61L* is not sufficient to induce tumors from KRT6a+ cells in normal mammary glands. Tumor-free Kaplan-Meier plot of K6a-*tva* mice infected by RCAS-*HrasQ61L*. RCAS-*PyMT* was used as positive control. Mouse age: 8~10 weeks. Virus dosages for both RCAS-*HrasQ61L* and RCAS-*PyMT* were 1×10^7 IUs/gland.
