

Bellissimo et al. Supplementary Figure 3

Supplementary Figure 3: miR-145-5p overexpression inhibits migration with the contribution of Ago2: (A) Transwell migration assay showing an increase of MDA-MB-231 migratory properties upon 72h of Ago2-HA overexpression and relative images (left panel) (Scale bars, 100 μ m); western blot analysis of Ago2-HA in the same condition (right panel); (B) Transwell assay showing a reduction of migratory properties after Ago2 silencing with relative images (left panel) (Scale bars, 100 μ m); western blot analysis performed upon 72h of Ago2 RNA interference (right panel);
