Comments to the authors:

Dear Authors

- 1- Your article need to native English language edition.
- 2- Key word should be written more briefly.
- 3- All mentioned reference in article, should be cited in end of same sentences or paragraph. For example, Taha et al. (2004) and Matsuzaki et al. (2004) in section 'Introduction'.
- 4- In section 'Result' line 3: what is $P=.86$, $P=.71$, $P=.01$ and ... ? I think should be change to $P=0.86$ and ... respectively.
- 5- reference number 15 (Practice parameter for electrodiagnostic studies in ulnar neuropathy at the elbow: .. Muscle & nerve 1999;22:408-411.) don't cited in text.
