#### FRIEND GRID

Interviewer script: Now we want to ask you about five of your friends. We will ask you for initials for each friend. The initials you choose are only to help you remember which friend you are talking about as you answer questions, not to identify your friends. Over the following few minutes we are going to ask you some questions about each of these friends in turn. We will ask for information such as how long you have known each other, where your friend lives, and then something about what you talk about and what you do together. Please remember, we keep all information completely confidential.

Coding Instruction: Before proceeding, collect initials of all friends given by the participant. Only proceed to following questions after initials have been collected. When asking questions, please use the initials of the friend concerned.
