

Table S1. Distribution of healthcare workers amongst interviewed and reviewed psychogenic movement disorder (PMD) cases within each PMD subtype, compared to the distribution of healthcare workers amongst interviewed and reviewed controls (n=29, 20% Healthcare employment; n=119, 80% No Healthcare Employment).

PMD Subtype	n (% of Interviewed & Reviewed PMD Cases)	Healthcare Employment, n (row %)	No Healthcare Employment, n (row %)	<i>p</i>
Total	132 (100)	33 (25.0)	99 (75.0)	0.28
Gait	20 (12.6)	5 (25.0)	15 (75.0)	0.57
Dystonia	13 (8.2)	3 (23.1)	10 (76.9)	0.76
Myoclonus	23 (14.5)	6 (26.1)	17 (73.9)	0.47
Tremor	79 (49.7)	20 (25.3)	59 (74.7)	0.32
Other	24 (15.1)	7 (29.2)	17 (70.8)	0.28
